The Olivia Letters

The Pictorial Field-book of the Revolution

It seems as though every week there's a new app available on your smartphone promising dates a plenty--just swipe right. A mate, on the other hand, is becoming harder and harder to find. The age-old quest for true love requires more effort than ever before. Let's face it: dating is work. Which, as it happens, is exactly where it began, in the 19th century--as prostitution. In *Labor of Love*, Moira Weigel dives into the secret history of dating while holding up a mirror to the contemporary dating landscape, revealing why we date the way we do and explaining why it feels so much like work. This isn't a guide to "getting the guy"; there are no ridiculous "rules" to follow in *Labor of Love*. This is a brilliant, fresh, and utterly original approach to help us understand how dating was invented and, hopefully, lead us closer to the happy ending that it promises.

Jane Eyre Illustrated

One day something snaps inside Arthur Gibson, a burnt out forty year old manager tired by his rat race office life, and within one hour he sells everything he owns, flies to the sea, buys a sailboat and drives to the horizon, planning on never coming back. Of course this noble attempt to set himself free goes terribly wrong as the corporate environment didn't exactly prepare Arthur well for an off the grid sailor's life. So however free and independent he now feels, soon his biggest problem is how to survive. His escape becomes an international media sensation thanks to Alice Garbo, an ambitious journalist who makes Arthur and herself famous to boost her career. Millions admire his courage to 'stick it to the man', millions call him a coward. Soon, Alice toys with Arthur's destiny as she pleases, moves him like a chess piece to make his story appealing to the audience. He becomes a wanted felon pursued by Interpol and so he finds himself almost dying

on a boat he can't drive, being chased by police for something he didn't do and haunted by a media alter ego that has a life of its own. Arthur has bitten off more than he can chew. Arthur's Choice talks about taking a scary leap of faith when finding one's personal fulfillment without conforming to where society tells you a true happiness is. In today's fast paced, performance oriented first world, this book offers the answer to the question 'what if I just said enough?' The story is for adults struggling to find meaning or joy in mundane unfulfilling jobs, those tired by the contemporary speed of life.

A Life Worth Taking

In a bloody gang initiation gone wrong, Former Marine Staff Sergeant Cal Stokes simultaneously loses his fiancé and is thrust into America's unforgiving criminal underbelly. Never one to back down, the Navy Cross winner is forced to use the skills honed in the Marines along with the assets of his deceased father's company, Stokes Security International (SSI), to track down his enemy and penetrate the world of his enemy. He must seek his own brand of justice. Corps Justice.

With contributions by researchers from India, Europe, North America and the Caribbean, In Translation – Reflections, refractions, transformations touches on questions of method and on topics – including copyright, cultural hybridity, globalization, identity construction, and minority languages – which are important for the disciplinary development of translation studies but also of interest to other fields as well, most notably comparative literature, cultural studies and world literature. The volume provides a forum for new voices to be heard alongside those of well-established scholars and for current concerns to express themselves, often focusing on practices in areas of the world other than Europe or North America, which have until now tended to dominate the field. Acknowledging difference and celebrating it, the contributions conceive of translation as a process which reconstitutes and transforms, which brings renewal and growth, an interaction in a new context, a new reading, a new writing.

Broken

"A one-two punch! Half kick in the ass, half cheerleading encouragement."
—Steven Pressfield, author of The War of Art If you are happy being just a dreamer, perhaps you don't need this book. If you're enjoying the status quo, don't even consider reading this book. If you are content waiting for success to find you, please put this book down and go find something else to read. Why has Poke the Box become a cult classic? Because it's a book that dares readers to do something they're afraid of. It could be what you need, too. "Is Seth Godin the Pied Piper for however many of us have been afraid to fail? Will I answer his call? Will you?"
—Peter Shermeta, reviewing the original edition of Poke the Box

The Perseid Collapse

He came to town to drown his demons But the demons always fight back. Daniel

Briggs, fresh out of the Marine Corps, wakes up in Defuniak Springs, FL, hungover and confused, with no memory of the night before. A powerful local family finds him, intent on repaying the previous night's encounter. How will the former Marine ward off his attackers, deal with his demons and avoid being blamed for a young girl's death? If you like Stephen Hunter's Bob Lee Swagger, WEB Griffin's Killer McCoy, Tom Clancy's Jack Ryan, Lee Child's Jack Reacher, Vince Flynn's Mitch Rapp, and Robert Ludlum's Jason Bourne, you will love Daniel Briggs. The main Corps Justice series has over fourteen books in total and running, plus multiple spinoffs with its most popular characters. The series has earned thousands of five-star reviews and has been downloaded millions of times to Kindles across the globe. If you enjoy page-turning thrillers loaded with twists, brotherhood above all else, a staunch moral code and non-stop action, Cal Stokes and his Corps justice is for you! Readers are saying "Cooper got me hooked in the first chapter." "One of the absolute best fiction books dealing with military fiction I have read in a very long time." "I can't say that I have enjoyed any series as much as this one." "Boy is it hard to work when a book is this good. Hard to go to sleep in time."

A popular undergrad falls to her death A dark ring slinks closer to its goal Will the CIA's plant have the time and strength to stop them? For decades, authorities have tracked extremist elements inside institutions of higher learning. Up until now, the most dangerous become fiery protesters or literary fanatics. Times have changed. A new threat has emerged, insidious and hell bent on capitalizing on the naivete of coming-of-age youths ensconced in higher learning. How will one young woman's death start to unravel the mystery, and will a broken spy figure it out in time?

National Burden

After breaking from life with the Pack, mercenary Kate Daniels and her mate - former Beast Lord Curran Lennart - are adjusting to a very different pace. While they're thrilled to escape all the infighting, Curran misses the constant challenges of leading the shapeshifters. So when the Pack offers him its stake in the Mercenary Guild, Curran seizes the opportunity - too bad the Guild wants nothing to do with him and Kate.

The Road Home

Tells the stories of the young nation and the sacrifices that made the colonies' dream of freedom become reality.

Moral Imperative

Kidnappings and brutal killings in Mexico A border problem that the United States won't fix A Pope and a president faced with a common enemy What if the Pope and the Roman Catholic Church had a secret order of warriors monks who could do his

bidding? And what if said order was tasked, by the Pope himself, to find the terrorists who were not only focused on killing Catholic priests, but using them to gain entry into the United States? The Holy See approaches U.S. President Brandon Zimmer with his dilemma, asking for assistance in the matter. Who else would Zimmer choose to aid the warrior monks other than former Marine, Cal Stokes, and his team at The Jefferson Group?

Papal Justice

Jane Eyre (originally published as Jane Eyre: An Autobiography) is a novel by English writer Charlotte Brontë, published under the pen name "Currer Bell", on 16 October 1847, by Smith, Elder & Co. of London. The first American edition was published the following year by Harper & Brothers of New York.

Arthur's Choice

Muslim: A Novel is a genre-bending, poetic reflection on what it means to be Muslim from one of France's leading writers. In this novel, the second in a trilogy, Rahmani's narrator contemplates the loss of her native language and her imprisonment and exile for being Muslim, woven together in an exploration of the political and personal relationship of language within the fraught history of Islam. Drawing inspiration from the oral histories of her native Berber language, the Koran, and French children's tales, Rahmani combines fiction and lyric essay in to tell an important story, both powerful and visionary, of identity, persecution, and violence.

I Don't Work Fridays - Proven Strategies to Scale Your Business and Not Be a Slave to It

After the loss of one of his best friends, Cal Stokes is on a rampage. No enemy is safe. In the middle of his inner struggle, he receives a call from the President. Without other options, he needs Cal's help to weed out a deadly leak in his administration. The Marine must push his pain and political leanings aside and heed the President's call. After all, it's not every day that you get the Commander in Chief asking for your help.

What determines whether complex life will arise on a planet, or even any life at all? Questions such as these are investigated in this groundbreaking book. In doing so, the authors synthesize information from astronomy, biology, and paleontology, and apply it to what we know about the rise of life on Earth and to what could possibly happen elsewhere in the universe. Everyone who has been thrilled by the recent discoveries of extrasolar planets and the indications of life on Mars and the Jovian moon Europa will be fascinated by Rare Earth, and its implications for those who look to the heavens for companionship.

Not only does the enemy want to wipe out The Jefferson Group, they're also plotting to harpoon the president before the November election. Will Cal Stokes and his team escape the enemy's net, and will the president survive the election? Or will the schemes of Congressman Tony McKnight finally win the day, securing his position as the most powerful leader in the free world?

A Night to Remember

"I guess the most important thing to say up front was that the summer of 1987 was a pivotal time in my life. I was ten. I made a new best friend. And, I became a murderer. Yep. You heard right. The summer of 1987 was the ninth stop for yours truly on the great prison tour of my childhood. Every year a new town and a new prison to explore. I wasn't yet a murderer. Not at the beginning. Just the plain old son of a warden in jeans with permanent grass stains and threadbare sneakers that wore me more than I wore them. Life as the son of a Federal prison warden never felt weird until I turned 10. I was still a naive little waif until that nasty summer when everything changed. Now I sit here in my suit, so far removed from the boy of 1987 Virginia that I feel like I'm perfectly qualified to judge him. But

when the window's open, all I have to do is get a breeze from which I can detect the gluey stink of split black locust, or hear the froggy grind of a woodcock's call, and then I'm no longer qualified. There I am, back under the hot sun, at the edge of the creek stinking of heat and moss. I am that boy again. And I can make out the line of Redcoats marching in ramrod-straight formation along a pink-feathered sea of mountain laurel in the distance" What happens when a ten-year-old boy becomes friends with an inmate? Jimmy Allen's about to find out, and the crash of reality will stick with him for an eternity. The author of the USA Today bestselling Corps Justice series pens a coming of age story about youth, strength and the bravery of bonds between friends.

The Dressmaker's Gift

"2019. Six years after the Jakarta Pandemic "decimated" the world's population ; life is back to normal for the Fletchers and most Americans. The United States stands at the brink of a complete domestic and international resurgence, with stories of confidence and prosperity dominating the headlines. Appearances can be deceiving."--Back cover.

A growing Islamic threat An army ignored by the world A Marine who won't sit on the sidelines The Islamic State of Iraq and Levant (ISIS) is capitalizing on the neglect of war-weary world leaders. No one in Iraq is safe. Christians herded like cattle. Whole communities torn apart. Marine Cal Stokes has had enough. With the quiet support of U.S. President Brandon Zimmer, Stokes and his closest friends return to the Middle East to take the battle to the enemy even if it means being cut off from ever coming home. This is about what's right, not what's popular, a moral imperative

The Patriot Protocol

This book is a critical biography of Grant Allen, (1848-1899), the first for a century, based on all the surviving primary sources. Born in Kingston, Ontario, into a cultured and affluent family, Allen was educated in France and England. A mysterious marriage while he was an Oxford undergraduate wrecked his academic career and radicalized his views on sexual and marital questions, as did a three-year teaching stint in Jamaica. Despite his lifelong ill health and short life, Allen was a writer of extraordinary productivity and range. About half - more than 30 books and many hundreds of articles - reflects interests which ran from Darwinian biology to cultural travel guides. His prosperity, however, was underpinned by fiction; more than 30 novels, including *The Woman Who Did* , which has attracted much recent attention from feminist critics and historians. *The Better End of Grub Street* uses Allen's career to examine the role and status of the freelance author/journalist in the late-Victorian period. Allen's career delineates what it took to succeed in this notoriously tough profession.

The Busiest Man in England

This acclaimed clinical guide and widely adopted text has filled a key need in the field since its original publication. Nancy McWilliams makes psychoanalytic personality theory and its implications for practice accessible to practitioners of all levels of experience. She explains major character types and demonstrates specific ways that understanding the patient's individual personality structure can influence the therapist's focus and style of intervention. Guidelines are provided for developing a systematic yet flexible diagnostic formulation and using it to inform treatment. Highly readable, the book features a wealth of illustrative clinical examples. New to This Edition *Reflects the ongoing development of the author's approach over nearly two decades. *Incorporates important advances in attachment theory, neuroscience, and the study of trauma. *Coverage of the contemporary relational movement in psychoanalysis. Winner--Canadian Psychological Association's Goethe Award for Psychoanalytic and Psychodynamic Scholarship

Rare Earth

Emily Pomona Edson Briggs (1830-1910) was an American journalist and one of the first women to acquire a national reputation in the field. When her husband John R Briggs, whom she had married around 1854, was appointed as assistant clerk of the US House of Representatives in 1861, Emily discovered a talent for observing and commenting on the political scene. Her letter to the Washington Chronicle defending the employment of women in government caught the attention of the paper's owner and she was hired to write a daily column. She published her pieces

under the pseudonym Olivia, contributing to the Chronicle and its sister paper the Philadelphia Press for over 20 years. Her comments on public affairs were always incisive and whilst paying some attention to society and fashion, her column was quite unusual for a female journalist of the day. During the Lincoln administration she became the first woman to report directly from the White House, becoming personally close to the Lincoln family, and later she was among the first to be admitted to the congressional press gallery. She was elected first president of the Women's National Press Association upon its organization in 1882 and in later years became a noted Washington hostess. This collection of her columns was first published in 1906.

Magic Shifts

FROM THE AUTHOR: "TO LIVE" is a novel that came about after a handful of emotional conversations with my readers on Christmas Day 2017. What started as

an outreach program to make sure no one spent Christmas alone, turned into a story in my head, and then a journey of soul searching that I hadn't intended to take. This novel is a work of fiction, but I hope it encapsulates the fear so many of us face in living up to our potential, and more importantly, I hope it highlights the brave life so many choose to live after the loss of a loved one. Because it is a choice; a hard choice with so many possible endings. This novel is for the readers who have shared their stories, and for those who have yet to tell. Thank you for your honesty, your bravery and your incredible will to live. I've learned so much from you all. God bless. - C. G. Cooper
