#### **Measurement of Antibacterial Activity on Plastics and Other Non-Porous Surfaces**

World War Three wiped out the humankind. The planet is empty now. Huge cities became dust and ashes. Railroads are being eaten by rust. Abandoned satellites hang lonely on the orbit. Radio is mute on all the frequencies. The only survivors of the last war were those who made it into the gates of the Metro, the subway system of Moscow city. It's there, hundreds of feet below the ground, in the vaults of what was constructed as the world's largest air-raids shelter that people try to outlive the end of the days. It's there that they created a new world for themselves. The stations of Metro became city-states, and its citizens, torn apart by religions and ideologies are fighting for the now scarce commodities: air, water, and space. This tiny underground world can only remind humans of an immense world they once were the masters of. It's been twenty years past Doomsday, and yet the survivors refuse to give up. The most stubborn of them keep cherishing a dream: when the radiation level from nuclear bombings subsides, they will be able to return to the surface and have the life their parents once had. But the most stubborn of the stubborn continues to search for other survivors in this huge emptiness that once was called

Earth. His name is Artyom. He would give anything to lead his own people from the underground onto the surface. And he will. \* \* \* METRO 2035 continues and terminates the story of Artyom, the hero of the original Metro 2033 book and the Metro video games. Millions of readers across the world have been waiting for this novel for the long ten years. For those who have been following Artyom's adventures from the very beginning, Metro 2035 will deliver the concluding powerful part of the saga, with the ultimate part of the puzzle that can't be found anywhere else. For the new readers, Metro 2035 will become an excellent introduction into this unique fiction universe that has millions of fans across the world. \* \* \* Dmitry Glukhovsky's METRO novels have already sold millions of copies in 37 languages. They have also become a basis of cult video games 'Metro 2033' and 'Metro Last Light', and the film rights were optioned by a Hollywood studio. \* \* \* Behind the tense plot and the dark ambience of Metro 2035, there's yet another level: that of social dystopia and political satire. Metro metaphorically paints a pitiless picture of today's Russia, that is being overcast again by the dark shadows of its gruesome past. Do Russians need freedom? Do they want a war? Can they survive without an enemy? Who's to blame and can anything be done about it? Eternal questions. Fresh answers.

Since the early 1990s, while mainland China's state-owned movie studios have struggled with financial and ideological constraints, an exciting alternative cinema has developed. Dubbed the "Urban Generation," this new cinema is driven by young filmmakers who emerged in the shadow of the events at Tiananmen Square in 1989. What unites diverse directors under the "Urban Generation" rubric is their creative engagement with the wrenching economic and social transformations underway in China. Urban Generation filmmakers are vanguard interpreters of

the confusion and anxiety triggered by the massive urbanization of contemporary China. This collection brings together some of the most recent original research on this emerging cinema and its relationship to Chinese society. The contributors analyze the historical and social conditions that gave rise to the Urban Generation, its aesthetic innovation, and its ambivalent relationship to China's mainstream film industry and the international film market. Focusing attention on the Urban Generation's sense of social urgency, its documentary impulses, and its representations of gender and sexuality, the contributors highlight the characters who populate this new urban cinema—ordinary and marginalized city dwellers including aimless bohemians, petty thieves, prostitutes, postal workers, taxi drivers, migrant workers—and the fact that these “floating urban subjects” are often portrayed by non-professional actors. Some essays concentrate on specific films (such as *Shower* and *Suzhou River*) or filmmakers (including Jia Zhangke and Zhang Yuan), while others survey broader concerns. Together the thirteen essays in this collection give a multifaceted account of a significant, ongoing cinematic and cultural phenomenon. Contributors. Chris Berry, Yomi Braester, Shuqin Cui, Linda Chiu-han Lai, Charles Leary, Sheldon H. Lu, Jason McGrath, Augusta Palmer, Bérénice Reynaud, Yaohua Shi, Yingjin Zhang, Zhang Zhen, Xueping Zhong
