English Language Grammar Reference & Teacher's Guide (Second Edition)

The School World

This English Language Grammar Reference & Teacher's Guide (Second Edition) has been thoughtfully created drawing on almost two-decades of accumulated knowledge and wisdom gained as an English Language Facilitator, a Teaching English as a Second Language Teacher-Trainer, and an owner / Principal of two Ministry of Education registered and Qualifications Authority accredited English language schools. The book has been created as a comprehensive alternative to the intimidating thick and costly technical grammar books most ESL teachers accumulate. These books are often filled with linguistic academic jargon that is not easily understood, not to mention being heavy to carry from class to class. With an ESL teacher's needs in mind, the book has been packed with relevant, practical classroom information, examples, and advice, as well as being a comprehensive resource to the grammar and usage of the English language. Chapter One contains a comprehensive outline to the grammar and usage of the eight (8) parts of speech found in the English language, in simple terms. You will find easy to understand explanations and real-life sentence

Online Library Comprehensive English Grammar Composition Sc Gupta

examples for each concept. Chapter Two contains an English language punctuation guide. The guide can be used in two ways. First, the entire collection can be used as a reference to assist the ESL teacher in the correct use of punctuation. Second, the chapter can be used as a teaching tool. Each category, or a selection of categories within the chapter, can be the basis of an independent ESL lesson. Chapter Three contains a writing guide for either the teacher or their students. It provides invaluable information and guidance to all skill levels of writers who may attempt a simple composition, a more complex academic essay, or an advanced formal article. Chapter Four, Classroom Management, reflects the knowledge and wisdom gained by myself as a successful generalist educator, ESL facilitator, and a TESOL / TEFL Teacher-Trainer. I have also researched, observed and collected additional input from other passionate ESL educators and specialists. This chapter outlines classroom management techniques, and includes ways to identify and avoid potential problems, provides methods to inspire or motivate students, and expresses one of the most important concepts that an ESL teacher should gain knowledge on; the importance of cultural awareness and sensitivity. Chapter Five gives a brief comprehensive overview to the main teaching perspectives or models available. There are many approaches and methods used; some are more mainstream than others. Chapter Six provides relevant, practical advice in regard to ESL lesson design and its delivery. This includes, but is not limited to, the individual components generally found in an ESL lesson plan, the environment in which delivery takes place (in most cases the classroom),

the physical resources and technologies that can be considered, and the interpersonal skills needed to successfully build rapport, and to be credible and respected as a professional. This book has been designed and intended as a resource, to be used while creating lessons, but also used during actual real-time teaching. As students ask grammatical or composition questions, the English Language Grammar Reference & Teacher's Guide (Second Edition) can be quickly accessed, explanations given, and examples modified from the book, and then written on a writing surface.

This new edition of the Collins COBUILD English Grammar is a modern, global and learner-focussed grammar reference, aimed at learners and teachers of English.

McGraw-Hill Education Handbook of English Grammar & Usage

Turn the wheels, lift the flaps, and pull the tabs to get the lowdown about parts of speech, punctuation, and sentences. Want to turn grammar into a game? Name the pictures to get a handle on nouns. Spin a wheel to see verbs in action. Flip some flaps and put a few adjectives to work, creating some silly characters in the process. And what do pronouns have to do with looking in a mirror -- or prepositions with walking a dog through a pop-up park? There's nothing fusty about learning the basics of grammar with this jam-packed fun house of a lesson book, republished with a

colorful new cover.
