When the Girls Came Out to Play

A soup-to-nuts introduction to small, economical sailing craft Trailer sailers--the smallest, most economical sailboats with sleeping accommodations--are a popular platform for learning the basics of sailing and are often considered to be the entry level to cruising under sail. Author Brian Gilbert shows how trailer sailers can be the ideal craft for a lifetime of enjoyment, including serious, long-distance cruising. This book covers all the bases, including how to inspect, buy, and equip a boat; how to trailer, sail, navigate, and cruise in small boats; how to use communications

and navigation equipment; and more.

Chile peppers are hot--they add culinary fire to dishes from a variety of cuisines and inspire near-fanatical devotion in vegetable gardeners and collectors. The Complete Chile Pepper Book, by world-renowned chile experts Dave DeWitt and Paul W. Bosland, shares detailed profiles of the one hundred most popular chile varieties and include information on how to grow and cultivate them successfully, along with tips on planning, garden design, growing in containers, dealing with pests and disease, and breeding and hybridizing. Techniques for processing and preserving include canning, pickling, drying, and smoking. Eighty-five mouth-watering recipes show how to use the characteristic heat of chile peppers in beverages, sauces, appetizers, salads, soups, entrees, and desserts. This gorgeously illustrated, must-have reference for pepper-obsessed gardeners and cooks.

The West has always been a symbol of the wild frontier, rugged adventure, and dangerous exploration. However, if it wasn't for fear of the unknown, the West would just be another cardinal direction. *Old Scratch and Owl Hoots* delves into that fear and captures it in fourteen tales of terror set in the West ranging from the 1800s to the present day. Take a gander inside and you'll find stories dealing with a strange creature on Antelope Island that can never satisfy its hunger a young girl kidnapped by highwaymen; but she carries a dangerous secret a woman's vacation to Zion National Park that takes a dark turn when she can't stop hearing the cries of a newborn baby an outlaw on the run from Porter Rockwell who finds more than he bargains for in the Utah wilderness a war veteran who carries a darkness inside him that threatens his very own family. Experience these stories and more in *Old Scratch and Owl Hoots*. All the stories in the anthology are written by authors with Utah connections. Some are veterans at the craft, while others are making their debut. Cozy up next to a campfire and delve into these fourteen stories and find out why it's dangerous to be out and about in the West when the sun goes down.

In the high country of the northern Wasatch Mountains, lies what is left of one of the West's largest ranches. Deseret Live Stock Company was reputed at various times to be the largest private landholder in Utah and the single biggest producer of wool in the world. The ranch began as a sheep operation, but as it found success, it also ran cattle. Incorporated in the 1890s by a number of northern Utah ranchers who pooled their resources, the company was at the height of successful operations in the mid-twentieth century when a young Dean Frischknecht, bearing a recent degree in animal science, landed the job of sheep foreman. In his memoir he recounts in detail how Deseret managed huge herds of livestock, vast lands, and rich wildlife and recalls through lively anecdotes how stockmen and their families lived and worked in the Wasatch Mountains and Skull Valley's desert wintering grounds.

This is an exhilarating book, written by one of sociology's most imaginative theorists and critics. Professor Corrigan proceeds by turning old answers into new questions. He draws on a rich tradition of thought from sociology, philosophy, structuralism, post-structuralism, and literary criticism to explore major ongoing problems in everyday life: moral regulation, schooling, the capitalist world economy, intellectuals, and the problem of difference, masculinity. The result is one of the most dazzling contributions to critical sociology published in recent years.

In response to demand from landscape architects and home gardeners, *Natural Landscaping* returns to print in an updated and expanded second edition. It is unique in its focus on plant communities; it approaches landscape design as the establishment of natural ecosystems, rather than mere planting of specimens. Emphasizing the natural landscapes of the northeastern United States and eastern Canada, this book o reviews landscaping principles and techniques o introduces native plant species for grasslands, forests, edge areas, and small wetlands o illustrates how to evaluate a site and plan for visual effect and maintenance o presents the issues involved in restoring bogs, ponds, and other wetlands o offers practical advice on reducing chemical use while still combating invasive plants o addresses social, legal, design, and planting problems often encountered on residential sites o discusses natural landscaping for public parklands, civic

buildings, school grounds, and corporate properties

Social Forms/Human Capacities (RLE Social Theory)

The Complete Chile Pepper Book

The string of business scandals that recently engulfed America painted a picture of corporate chieftains lining their pockets by cutting corners, cooking the books, and duping gullible investors. In doing so, greedy CEOs have hijacked what could be one of the most important business innovations in decades: stock options for all employees. Joseph Blasi, Douglas Kruse, and Aaron Bernstein—all leading experts on employee ownership—show how American companies would perform much better if they followed the lead of many high-tech firms and granted options to their entire workforce, rather than to just a tiny corporate elite. Using SEC data in a way never done before, they document the vast wealth executives have accumulated for themselves. It shows how the abuse of options has taken place not just at scandal-ridden companies such as Enron and WorldCom, but across the entire reach of corporate America. In the *Company of Owners* argues that there's a better way. Broad-employee ownership through stock options offers a new model for U.S. corporations and American capitalism. The authors explain how employees and shareholders alike would benefit if most large companies adopted what they call the partnership capitalism approach—using options to encourage employees to

think and act like owners. A searing critique of business as usual in America's executive suites, this book offers a comprehensive vision for how stock options can enrich companies, employees, investors, and the U.S. economy as a whole. With its remarkable new evidence and astute synthesis, *In the Company of Owners* will change the way America thinks about stock options. Joseph R. Blasi, a sociologist, and Douglas L. Kruse, an economist, are professors at Rutgers University's School of Management and Labor Relations. Aaron Bernstein is a senior writer at *Business Week* magazine.

A field-tested guide to surviving a nuclear attack, written by a revered civil defense expert. This edition of Cresson H. Kearny's iconic Nuclear War Survival Skills (originally published in 1979), updated by Kearny himself in 1987 and again in 2001, offers expert advice for ensuring your family's safety should the worst come to pass. Chock-full of practical instructions and preventative measures, Nuclear War Survival Skills is based on years of meticulous scientific research conducted by Oak Ridge National Laboratory. Featuring a new introduction by ex-Navy SEAL Don Mann, this book also includes: instructions for six different fallout shelters, myths and facts about the dangers of nuclear weapons, tips for maintaining an adequate food and water supply, a foreword by "the father of the hydrogen bomb," physicist Dr. Edward Teller, and an "About the Author" note by Eugene P. Wigner, physicist and Nobel Laureate. Written at a time when global tensions were at their peak, Nuclear War Survival Skills remains relevant in the dangerous age in which we now live.
