Five Meters of Time

Surface Engineering for Wear Resistance

Nora Montgomery's primary goal was to remain seemingly unnoticed until graduation, and that meant staying away from Ryder Collins. But when both she and Ryder are selected to participate in the local police department's handcuff demonstration, they find themselves inescapably chained together. The tension between them is thick; filled with unresolved issues from their past friendship. But things get a whole lot worse when the officer loses the key and the pair are forced to accommodate each other until a replacement is available. Being handcuffed to the opposite gender was sure to introduce some extremely uncomfortable situations. Things are about to get awkward right?

Ruskin Bond's readers range from nine to ninety. And if there are such things as ghosts there are probably a few who are reading him in the spirit world. In these

stories Ruskin Bond presents a picture of a 'haunted India' as witnessed and described by British writers, officials and travellers during the pre-independence era. Ruskin Bond, resident of Mussoorie, is a well-known writer of fiction and a raconteur par excellence. His Tales and Legends from India, Angry River, Strange Men, Strange Places, The Blue Umbrella, A Long Walk for Bina and Hanuman to the Rescue are also available in Rupa paperback. The Ruskin Bond's Children's Omnibus has been a firm favourite with young readers for several years. Ghost Stories from the Raj, The Rupa Book of Great Animal Stories, The Rupa Book of True Tales of Mystery and Adventure, The Rupa Book of Himalayan Tales and The Rupa Book of Great Suspense Stories are some of his recent books for Rupa.

Relational-centred Research for Psychotherapists

A new India is visibly emerging from within the folds of its many pasts. This new India needs to be seen with new eyes, free from the baggage of yesterdays characterizations. This is exactly what Santosh Desai, one of Indias best-known social commentators, does in this warm, affectionate and deliciously witty look at the changing urban Indian middle class. Writing as an insider, from personal experience, Desai cuts through the chaos and confusion of everyday India both yesterday and today, and suddenly, makes us see things clearly. Holding a mirror to our inner selves, Desai makes us see what drives us, what makes us tick, what makes our hearts beat, and how our mindsets and attitudes are changing, even as the past never quite leaves us. And Desai does so in short masterful essays, written with great humour and sensitivity. A big book about small things that truly matter.

Cooking for One

More than ever before modern chefs use interesting new cooking techniques and ingredients to boost texture, add depth of flavour and make so much more of humble carrots, kale and cauliflower. Vegetable dishes are now storming the menus at some of the world's best restaurants where chefs are treating fresh vegetable produce with the reverence it deserves and turning ingredients that used to be reserved for side dishes into centrepieces. Organized by type of produce, there are recipes for root veg, alliums and bulbs, potatoes and squash, legumes and pods, sweet vegetables, shoots and stems, mushroom and funghi, as well as basic recipes for a well-stocked chef's storecupboard. Choose from Smoked Parsnips with Blue Cheese, Cauliflower & Truffle Pate, Red Cabbage & Burnt Aubergine Baba Ganoush, Kale Gnocchi, Kimchi, Spring Pistou Soup, Nettle & Wild Garlic Soup with Gruyere Toasts, Red Onion Tarte Tatin, Pea Panna Cotta, Pizza Bianca, Spaghetti Puttanesca, Artichoke Frittata, Champagne Mushrooms, Fennel & Roast Tomato Lasagne or a selection of versatile sauces, ketchups, chutneys, pickles, pestos and oils. Whether you want a revitalizing juice to start the day, a quick summer salad, a slow-roasted winter bake or to preserve an abundance of seasonal produce, you'll find plenty of fresh inspiration here.

Vegetable Simple: A Cookbook

Elements of Wit

Got wit? We've all been in that situation where we need to say something clever, but innocuous; smart enough to show some intelligence, without showing off; something funny, but not a joke. What we need in that moment is wit—that sparkling combination of charm, humor, confidence, and most of all, the right words at the right time. *Elements of Wit* is an engaging book that brings together the greatest wits of our time, and previous ones from Oscar Wilde to Nora Ephron, Winston Churchill to Christopher Hitchens, Mae West to Louis CK, and many in between. With chapters covering the essential ingredients of wit, this primer sheds light on how anyone—introverts, extroverts, wallflowers, and bon vivants—can find the right zinger, quip, parry, or retort...or at least be a little bit more interesting.

From one of the world's most renowned chefs, 110 essential recipes that bring out the beauty of vegetables, simply prepared. Eric Ripert is the co-owner of the acclaimed restaurant Le Bernadin, and the winner of countless Michelin stars. He is well known for his exquisite, clean, seafood-centered cuisine, but now, in *Vegetable Simple*, he turns his singular culinary imagination to vegetables. Lately, Ripert has found himself reaching for vegetables as his main food source--and doing so, as is his habit, with great intent and care. In the 110 recipes in this book, Ripert brings out their beauty; their earthiness, their nourishing qualities, and the many ways they can be prepared. From his sweet pea soup to his watermelon pizza, from his fava bean and mint salad to his mushroom Bolognese and his roasted carrots with harissa, Eric Ripert articulates a vision for vegetables that are prepared simply, without complex steps or ingredients, allowing their essential qualities to shine and their color and flavor to remain uncompromised. A gorgeous

guide to the way we eat today.

The Invention of Religion

From Guy Saville, the explosive new thriller of a world that so nearly existed Africa, 1952. More than a decade has passed since Britain's humiliation at Dunkirk brought an end to the war and the beginning of an uneasy peace with Hitler. The swastika flies from the Sahara to the Indian Ocean. Britain and a victorious Nazi Germany have divided the continent. The SS has crushed the native populations and forced them into labor. Gleaming autobahns bisect the jungle, jet fighters patrol the skies. For almost a decade an uneasy peace has ensued. Now, however, the plans of Walter Hochburg, messianic racist and architect of Nazi Africa, threaten Britain's ailing colonies. Sent to curb his ambitions is Burton Cole: a one-time assassin torn between the woman he loves and settling an old score with Hochburg. If he fails unimaginable horrors will be unleashed on the continent. No one - black or white - will be spared. But when his mission turns to disaster, Burton must flee for his life. It is a flight that will take him from the unholy ground of Kongo to SS slave camps to war-torn Angola - and finally a conspiracy that leads to the dark heart of The Afrika Reich itself.

"In this book, the author explores the question of whether religions were invented by humans or given to us by some other means. It is a scientific look at how ancient humans made sense of the world and the phenomena they encountered around them. In the past, arguments against the existence of gods have mainly come in the form of scientific inquiries that attempt to show there is no evidence for their existence. The Invention of Religion, however, investigates the psychological mechanisms that cause religions to originate and it sets out to prove that when humans have neither science nor religion, these mechanisms cause them to invent new religions. It also investigates how the differences (like monotheism vs. pantheism) between religions arise and how probable these differences are"--Amazon.com.

Babel

A history of the industrial and construction machines built by the International Harvester Company along with Hough and Dresser.

Honda Civic-CRX, 1984-91

In the numbers-obsessed sport of baseball, statistics don't merely record what players, managers, and owners have done. Properly understood, they can tell us how the teams we root for could employ better strategies, put more effective players on the field, and win more games. The revolution in baseball statistics that began in the 1970s is a controversial subject that professionals and fans alike argue over without end. Despite this fundamental change in the way we watch and understand the sport, no one has written the book that reveals, across every area of strategy and management, how the best practitioners of statistical analysis in baseball-people like Bill James, Billy Beane, and Theo Epstein-think about numbers and the game. *Baseball Between the Numbers* is that book. In separate chapters covering every aspect of the game, from hitting, pitching, and fielding to roster construction and the scouting and drafting of players, the experts at *Baseball Prospectus* examine the subtle, hidden aspects of the game, bring them out into the open, and show us how our favorite teams could win more games. This is a book that every fan, every follower of sports radio, every fantasy player, every coach, and every player, at every level, can learn from and enjoy.

Citroen BX Service and Repair Manual

Babel, Alan Burns's fourth critically acclaimed novel, contains all the hallmarks of the aleatoric style he helped to define--shot through with seemingly random newspaper headlines, poems, snatches of conversation and anecdote, which both heighten and undermine meaning, and characterized by extreme contrasts of mood and style and startling surrealist juxtapositions of images and ideas. By turns comic and tragic, tender and brutal, religious and blasphemous, the narrative rockets from London to the United States to Vietnam to interstellar space, familiar events are constantly fragmented and reset into new patterns, and ultimately *Babel* becomes a cautionary tale about the tragedy arising from attempting to build Utopia.
