Welcome to Corporate Life. The NEW Employee Manual is not your Dad's or Mom's employee manual. It's the new playbook for corporate survival, fitting today's realities and the challenges facing employees who join or work in large, seemingly successful companies. Those companies already issued very specific and detailed employee manuals covering everything under the sun except how to compete well in our brave new world. The NEW Employee Manual will help you navigate the Corporate (with a capital C) labyrinth. Where Corporate's manual shapes you into a dutiful cog for the good of the machine, ours helps you enhance your career for the good of, well, you and your company. The NEW Employee Manual should make you feel skeptical: skeptical of empty slogans, obsolete rituals, obsessive pursuits, and bigwigs' playbooks that no longer work. That alone should be worth this book's price. Skepticism, you see, is a good thing, because it is only the skeptic, only the free-thinker, only the maverick, who asks new questions and finds useful answers. So, are you a maverick or a cog?

Many school system stakeholders know that education legal matters are often dominated by employees, students, and special education. Mr. Griffin has spent vast amounts of time addressing each of these areas; working directly with administrators on a daily basis has afforded Mr. Griffin the opportunity to master all ranges of the spectrum. Most importantly, Mr. Griffin has dedicated his career to giving educators the highest quality legal and practical advice to help them navigate the complex modern framework of laws that govern what they do on a day-to-day basis. Whether the legal issue involves a student, parent, teacher, staff, administrator, or a combination of all of them, Mr. Griffin has almost certainly addressed it. In fact, that is why he wrote this book. He knows, first hand, that it is desperately needed.

Award-winning author Philip K. Howard lays out the blueprint for a new American society. In this brief and powerful book, Philip K. Howard attacks the failed ideologies of both parties and proposes a radical simplification of government to re-empower Americans in their daily choices. Nothing will make sense until people are free to roll up their sleeves and make things work. The first steps are to abandon the philosophy of correctness and our devotion to mindless compliance. Americans are a practical people. They want government to be practical. Washington can't do anything practically. Worse, its bureaucracy prevents Americans from doing what's sensible. Conservative bluster won't fix this problem. Liberal hand-wringing won't work either. Frustrated voters reach for extremist leaders, but they too get bogged down in the bureaucracy that has accumulated over the past century. Howard shows how America can push the reset button and create simpler frameworks focused on public goals where officials—prepare for the shock—are actually accountable for getting the job done.
