Official Airline Guide

In the seventies the Yugoslav avant-garde contributed key players to the international arena of art. The work of Marina Abramovic and Ulay, Braco Dimitrijevic and others made an impact at the Biennales of Paris and Sydney; the articles of Zoran Popovic were cited by Art & Language; and many important figures such as Joseph Beuys, Joseph Kossuth and Simone Forti made contact with the art scene in Belgrade or performed at its progressive Student Cultural Centre. Since those heady days Belgrade has become an isolated city and Serbs are ostracised by the international community. What has happened to the art scene in Serbia? How do artists survive in an economy ruined by war and by sanctions? How do they react to the stress of demonisation? Anthony Howell is a frequent visitor to Serbia. In this journal he describes the intellectual life which continued to flourish in Belgrade (at least until his last visit in the spring of 1997), lectures by Victor Burgin and by the British Ambassador, exhibitions,

Motor's Auto Repair Manual

This book tells of the story of Sprite caravans, from early primitive designs to the sophisticated Sprite of today. It describes how one man - Sam Alper OBE - was driven to provide the caravanning public with cheap affordable holidays, by bringing the VW/Ford mass-production ethos to the caravan industry.

Robert Schleicher wrote the book on slot car racing—literally. In the three short years since Schleicher's *Slot Car Racing: Tips, Tricks & Track Plans* was published, the hobby has been virtually transformed by new products and technologies. This new volume, a perfect complement to its

Higgins 1 Oct 1985 Paperback

predecessor, brings readers and racers up to date, offering a concise, comprehensive overview of slot car racing's developments, along with expert, practical guidance for putting this information to good use. A primer on the latest digital and analog developments for both 1/32 and HO scales, Schleicher's book delivers the lowdown on building cars from individual components on ready-to-race chassis, as well as popular tune-up tips to get even more speed and better handling out of today's cars. Schleicher also provides track tests of 70 cars and a slot-car shootout featuring 23 more vehicles. Finally, Schleicher includes nearly 50 track plans: 14 tabletop-size plans for Scalextric, Classic, Carrera, Sport, SCX, and Ninco brand track; 14 plans modeled on real circuits like Watkins Glen, Monaco, Spa-Francorchamps, Sears Point, and the Bahrain and Shanghai F1 courses; and 17 4x8-foot HO scale plans. Illustrated throughout with color photography and track plan line art, this is the book that no serious slot car racer can afford to be without.
