What is holding you back from living the life you want to live? What are you saying you want to do, but not actually doing yet? The better question is to ask why you aren't already living the life you want to live. The answer? Your self-image. Your outer world is an inside job. Whatever you are expressing outside is a direct

result of how you see yourself on the inside. In order to change your life, you must change what you believe about yourself. If you focus on what you are currently experiencing, that is all that you will experience. If you focus on your dreams and goals, then they become what you will experience. It's time to start thinking about what you are doing and if you want to go to the end of your days with this story. provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples, from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the inmost patterns of human psychology. Drawing on a vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose. Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.

“A monumentally researched biography of one of the

nineteenth century's wealthiest self-made Americans...Well-written and worthwhile" (The Wall Street Journal) it's the rags-to-riches frontier tale of an Irish immigrant who outwits, outworks, and outmaneuvers thousands of rivals to take control of Nevada's Comstock Lode. Born in 1831, John W. Mackay was a penniless Irish immigrant who came of age in New York City, went to California during the Gold Rush, and mined without much luck for eight years. When he heard of riches found on the other side of the Sierra Nevada Mountains in 1859, Mackay abandoned his claim and walked a hundred miles to the Comstock Lode in Nevada. Over the course of the next dozen years, Mackay worked his way up from nothing, thwarting the pernicious "Bank Ring" monopoly to seize control of the most concentrated cache of precious metals ever found on earth, the legendary "Big Bonanza," a stupendously rich body of gold and silver ore discovered 1,500 feet beneath the streets of Virginia City, the ultimate Old West boomtown. But for the ore to be worth anything it had to be found, claimed, and successfully extracted, each step requiring enormous risk and the creation of an entirely new industry. Now Gregory Crouch tells Mackay's amazing story—how he extracted the ore from deep underground and used his vast mining fortune to crush the transatlantic telegraph monopoly of the notorious Jay Gould. "No one does a better job than Crouch when he explores the subject of mining, and no one does a better job than he when he describes the hardscrabble lives of miners" (San Francisco Chronicle). Featuring great period photographs and maps, *The Bonanza King* is a dazzling tour de force, a riveting history of Virginia

Rags to Rags is an irreverent, tongue-in-cheek collection of short stories about being the poorest kid in the room. It hails from the mind of Ellie Guzman, whose unconventional approach to writing humorous essays about uncomfortable topics on her blog has led to publication worldwide and an international following. Throughout her life, Guzman has somehow always ended up in wealthy spaces, from stumbling into the child acting industry, to scraping by on financial aid at a prestigious private university, to breaking into an animation studio and gradually working her way up the writing ladder. But in her personal life, she was always broke, growing up

cramped in a one-bedroom apartment with a family of four and joining scientific studies to make a quick buck. Her short stories embrace the bizarreness of those situations as well as the realities of what being "poor" means, all through a hilarious and quirky lens. "Oh My God, Are You Bryan Cranston?" tells the story of the time Guzman mistakenly attended a screening with the cast of *Argo*, and how she attacked the hors d'oeuvres to cope with the shame of being underdressed in front of her heroes. "You Better Work" describes the unusual lengths she went through to survive college, like getting her blood drawn for cash or pretending to be a freshman for a free sandwich. "The New Normal" describes how exactly she made the leap from a career in medicine to one in television, and "Whitewashed" explores an identity crisis as a first-generation Latina coming to terms with who she is. It's a variety of topics infused with Guzman's unique voice, funny but sincere, conversational yet biting. It doesn't take itself too seriously; after all, it's not a story of rags to riches. It's a story of rags to rags.

From Spectator to Motivator I've sat in the stands at football games (which occupied more than half my life) - from peewee league to professional - whether I was cheering on my son, his dad or my grandsons. It didn't matter what level of play it was, they each had the same passion for the game - for the competition, the comradery, the celebration of championships or bemoaning losses. Living this "football life" has afforded me extraordinary opportunities, exposure to life's options and blessings untold. That life filled my personal "playbook" with the wisdom to call an audible, pass, run or, go for the two-point conversion as I lived each day. Yes, I observed the "thrill of victory and the agony of defeat" from the stands and side-lines. Most importantly, I'd beheld strength, courage and purpose. And, those qualities molded me

into the person I am today. I got off the bench after merely existing and got into the game of living.
