In June 1980, 19-year-old James McDonnell (known as Slim Jim Phantom) boarded a plane from New York City to London with his childhood friends and bandmates Brian Setzer and Lee Rocker. In less than a year, they went from being homeless, hungry, and living in punk rock squats to the toast of the London music scene. The Stray Cats developed a signature sound and style that swept across the world, released multiplatinum albums, and were embraced and befriended by classic rock acts like the Rolling Stones and Led Zeppelin, as well as original punk heroes such as the Sex Pistols, the Damned, and the Clash, and rock-and-roll originators Carl Perkins and Jerry Lee Lewis. After ten years of marriage to actress Britt Ekland, Slim Jim moved down the hill to Sunset Strip, where his son was raised and he owned the world-famous rock-and-roll bar Cat Club while continuing to play with a host of well-known musicians. Slim Jim, a veteran of the London and LA music scenes, recounts in his memoir not just the Stray Cats' rise but a different type of life spent in the upper echelon of rock-and-roll stardom.

520 Aquaculture growth worldwide involves the expansion of cultivated areas, a higher density of aquaculture installations and farmed individuals, and greater use of feed resources produced outside the immediate culture area. To ensure that such development of the sector does not carry negative impacts on the environment and on parts of society due to weak regulation or poor management, an ecosystem approach for aquaculture (EAA) is encouraged. These proceedings consider aspects relevant for an ecosystem-based management in aquaculture. The document also includes two comprehensive reviews covering the status of brackish, marine and freshwater aquaculture within an ecosystem approach perspective.--Publisher's description.

Mallard Fillmore--

John Keel's "Strange Creatures From Time and Space," originally published in 1970 with artwork by Frank Frazetta, is a comprehensive encyclopedia of monsters from around the world, including: -Fantastic flying saucer occupants -True psychic phenomena -Phantom killers of people and livestock -The full story of West Virginia's man-bird, "Mothman" -The elusive "Bigfoot," Sasquatch, and Yeti -Giants of Minnesota and the Appalachians -Sea serpents and lake creatures -Vampires and werewolves -Angels and demons -The dangerous and enigmatic Men in Black (MIB) John A. Keel has been on the trail of weirdness for decades, investigating wild tales of alien abduction, hairy monsters, and mysterious entities that can terrify

and even harm humans. He has become the top man in the field of the inexplicable. Keel actually has explanations for the unusual things he recounts - which have long left others baffled. In this mountain of way-out evidence, he sees a pattern and draws original, startling, and convincing conclusions. Keel was born in monster country - on a farm in Silver Lake, New York, home of one of America's native sea serpents. He began writing articles on UFOs in 1945, two years before the ufomania began. In 1952, he produced a Halloween broadcast from the Frankenstein Castle in Germany, and in 1954 he saw his first flying saucer while exploring the Upper Nile. For years, Keel wandered around Asia in search of the secrets of the occult. The last American to enter Tibet from the Indian side, Keel spent weeks tracking the Yeti. After having written many books and magazine articles, Keel remains an open-minded skeptic. There is no one better qualified to report on and interpret today's flood of "anti-rational" evidence than Keel.

Peace River is a location near Lake Hancock, north of present-day Bartow. Seminole hunting towns on Peace River lay in a five or six mile wide belt of land centered on and running down the river from Lake Hancock to below present-day Fort Meade. Oponay, who also was named Ochaona Tustenatty, was sent into Florida as a representative to the Seminoles on behalf of the Creek chiefs remaining loyal to the United States during the Seminole War. Oponay occupied the land adjacent to Lake Hancock and Saddle Creek. Peter McQueen and his party occupied the area to the south of Bartow. Quite likely their settlement included the remains of Seminole lodges and other facilities located on the west bank near the great ford of the river at Fort Meade. This important strategic position would have allowed the Red Sticks (Indians) to control not only access to the hunting grounds to the south, but communication and the trade with the Cuban fishermen at Charlotte Harbor, as well as the passage of representatives of Spain and England through the harbor.

A fascinating visual exploration of motoring in Britain. Motoring in Britain began the century as a minority pursuit of the rich and eccentric: here the reader can see the story unfold until 33 million vehicles travel on British roads, dominating all of our daily lives. Motor sport from the makeshift, oily days of pre-war Brooklands to the high tech professionalism of today's Formula One, traffic from the empty roads of the past to contemporary motorway congestion, family holidays in Austins and Fords, even just driving to work: our memories are filled with motoring and the pictures in this book will prompt many a reminiscence.
