### Out of the Blue

Civilizations come and go and they don't always go quietly. In our global civilization, the consequence of it all crashing is going to be far-reaching, and with nowhere to hide. With so many moving parts and a lack of long-term stewardship by our leaders, odds are good that you will want to make at least a few preparations but the question you often ask is: how? That's where I come in. In Beyond Collapse, we not only get you prepared for such an event, but we also help you and your fellow survivors come together, defend one another, preserve what may be lost and rebuild civilization together. Unlike most books of this type, we don't require a paramilitary mindset, tinfoil headgear, bunkers, or living "off-grid." Everything in here is geared towards gaining skills and resources that are just as useful and socially acceptable in peaceful times as they will be when society and civilization crashes. You will find this book useful for beginners, or those who have been preparing for a long time. The best part is, you will find it useful even if civilization holds up just fine.

*How Starbucks became Starbucks and other secrets of branding success.* Aimed at managers, not just marketers, a famed consultant presents a powerful prescription for understanding, building, and sustaining brand equity. Duane Knapp demonstrates, from a management perspective, why "a company's brand is the most valuable asset it can have." he shows how the very best practitioners - contemporary household names like Starbucks, Citicorp, Whirlpool, Lexus, Hallmark, and others - shrewdly develop and maintain their brands even in the face of ferocious competition. Readers can assess and improve their own efforts by adopting Knapp's five proven components of the Brand Mindset that is for brand success: Make a promise to the consumer; make all decisions with the brand in mind; make sure the entire company supports the brand's message; make the brand bigger than the business, and build one specific image for the brand and stick with it always.

## **Urban and Regional Planning**

Sins Was the grass really greener for Ambrose Kerr? "I've never told a living soul any of that before...." Emilie stared up at Ambrose, as what he had told her reverberated in her mind. She hadn't really taken it all in—where on earth could he have come from to have lived like that...? He ran his hand through his thick black hair in an angry gesture. "God knows why I blurted it out to you. I wonder if you realize...I've given you a weapon that could destroy me...." Love can conquer the deadliest of Sins.

## **Management Gurus**

## **Tales of the Seven Seas**

These transfers of sovereignty resulted in extensive, unforeseen movements of citizens and subjects to their former countries. The phenomenon of postcolonial migration affected not only European nations, but also the United States, Japan and post-Soviet Russia. The political and societal reactions to the unexpected and often unwelcome migrants was significant to postcolonial migrants' identity politics and how these influenced metropolitan debates about citizenship, national identity and colonial history. The contributors explore the historical background and contemporary significance of these migrations and discuss the ethnic and class composition and the patterns of integration of the migrant population.

## **Political Philosophy**

What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In *A House To Remember*, she explains why.

## **Stolen Nights**

This highly acclaimed criminology text presents an up-to-date review of rational choice theories, including deterrence, shaming, and routine activities. It also incorporates current examples of deterrence research regarding domestic violence, drunk driving, and capital punishment, and features thought-provoking discussion of the relativity of crime. The authors explore the crime problem, its context, and causes of crime. The organization of the text reflects the fact that the etiology of crime must be at the heart of criminology. It examines contemporary efforts to redefine crime by focusing on family violence, hate crimes, white-collar misconduct with violent consequences, and other forms of human behavior often neglected by criminologists. Extensive discussion of evolving laws is included, and while the prevalence of the scientific

method in the field of criminology is highlighted, the impact of ideology on explanations of crime is the cornerstone of the book. Comprehensive introductory textbook that looks at competing answers to the question, "Why do people commit crimes?" Student-friendly figures, features, highlights, and full-color photos. Each chapter includes learning objectives, discussion questions, and lists of key terms and concepts, key criminologists, and important legal cases. The eighth edition includes updates throughout and expanded coverage of biosocial theories of crime and life-course criminology.

Offering unprecedented coverage from antiquity to the present, this historically organized collection presents the most significant works from nearly 2,500 years of political philosophy. The readings are substantial or complete texts, not fragments. The book includes work from major nineteenth-century thinkers (Hegel, Marx and Engels, Mill, Nietzsche) and twentieth-century theorists (Arendt, Hayek, Berlin, Taylor, Rawls, Sandel, Nozick, Foucault, Habermas, Held, Nussbaum, Young, Appiah) and also presents a variety of notable documents and addresses, including *The Declaration of Independence*, *The Constitution of the United States*, and speeches by Abraham Lincoln, John Dewey, and Martin Luther King, Jr. In addition to the new selections noted above in bold, the third edition also includes the complete text of Mill's *On Liberty*, an excerpt from Rawls's *Political Liberalism*, and expanded selections from Plato, Aristotle, Machiavelli, Hobbes, Locke, and *The Federalist Papers*.

### **The Essential Clinical Handbook for the Foundation Programme: a Comprehensive Guide for Foundation Doctors on How to Achieve Your Eportfolio Core Clinical Competencies**

“It may seem like I came out of the blue. But, my road was long, windy, full of hurdles, and even some dead ends. I lost family. I lost friends. I even lost my way. When I reached what felt like rock bottom, I realized I had a responsibility to everyone who believed in me and to kids, like me, who just needed a chance and something to believe in.”—from the epilogue of *Out of the Blue* Victor Cruz, the Super Bowl-winning and record-breaking wide receiver, is best known for his explosive plays and salsa touchdown celebrations. While his meteoric rise in the NFL looked like the result of a magical

year, it was actually a lifetime in the making. Raised in Paterson, New Jersey's gritty Fourth Ward, Cruz overcame numerous setbacks through hard work, perseverance, and the support of his loving family—from his grandmother who gave him his signature dance moves; to his late father, a former firefighter, who introduced him to football and taught him how to play; to his hard-working, single mother who never let him give up in the face of a challenge. They all helped to keep him on the right path, as did his coaches, but Cruz's journey was never easy. There were family tragedies, academic struggles, injuries, and more. In this inspiring, never-before-seen account, Cruz pays tribute to the people and places that made him the man he is today, recounts his most defining moments, and illustrates how his hardships ultimately unleashed his impenetrable will to win. *Out of the Blue* is a candid and moving reflection of an overlooked and undersized athlete with an uncommon last name in American football that was determined to beat the odds and earn his chance to succeed.

### **Haunted Dreams**

The Burden Of Freedom explains that too many people use past oppression to remain mired in hatred and irresponsibility today. The spirit of oppression has specific telltale effects on individuals, communities, and nations. These are identified by Myles Munroe as a hatred for work, laziness, fear, low self-esteem, selfishness, lack of creativity, low initiative, and distrust of those in authority. To break free from these self-replicating cycles of oppression there must be a mental transformation. Paradoxically, freedom requires the need to impose control on self, require more responsibility than slavery, and the decision to accept a destiny of freedom, recognizing the process and discipline that personal and political freedom require. Simply put, The Burden Of Freedom should be available to every citizen and on the shelves of every high-school, college, and community library in the country.
