Handbook on the Economics of Leisure

Everyone has secrets that define them, a past that has shaped them, and a game they play - whether they know it or not. Despite the fact they live next door to each other, Kade and Raya have never made an effort to speak, until a wild party, four frat boys, and a bulldozer. Sterling Shore was supposed to be a new start for eighteen-year-old Raya Capperton. Everything was working out perfectly until her two roommates were expelled for a prank, leaving Raya with the house she couldn't afford on her own. Fate intervenes before she has the chance to find a new home, but she struggles to decide if it's divine luck or the devil's cruel sense of humor. Twenty-one-year-old Kade Colton has his life planned out, and everything he does is an elaborate game to aid him with his future endeavors. Coming from money has made Kade's life easy, but he wants to build his own name - his own future. The thing he doesn't realize when you only put forth superficial effort, you only acquire superficial friends. Raya is torn between being amused or disturbed by Kade and his philosophy, but the drive behind his determination isn't what Raya expected. Little by little, her hatred fades and is replaced by emotions she never would have believed she could have for the rich jerk she desperately doesn't want to care about. Too bad you can't force yourself not to care. The problem is Kade's shiny name can't be tarnished, and Raya has a jaded tie she can't cut loose. Nothing about them can work, nothing about them makes sense, but nothing can seem to stop them from trying. *Not suitable for anyone under the age of eighteen **No cliffhanger **New Adult Contemporary Romance **Descriptive sex **Language

Getting Started with Couchbase Server

Do you know what to do if your web application goes viral and usage suddenly explodes? This concise guide introduces you to Couchbase Server, an extremely fast NoSQL database that automatically distributes data across a cluster of

commodity servers or virtual machines. You'll learn hands-on how to build a Couchbase cluster without changing your application, and how to expand your database on the fly without interrupting service. Discover how this open source server can help your application gain scalability and performance. Learn how the server's architecture affects the way you build and deploy your database Store data without defining a data structure—and retrieve it without complex queries or query languages Use a formula to estimate your cluster size requirements Set up individual nodes through a browser, command line, or REST API Enable your application to read and write data with sub-millisecond latency through managed object caching Get a quick guide to building applications that integrate Couchbase's core protocol Identify problems in your cluster with the web console Expand or shrink your cluster, handle failovers, and back up data

Here in a short, compact and concise format is the basics of how to persuade more people more effectively, more ethically, and more often. Ziglar draws from his fundamental selling experiences and shows that while the fundamentals of selling may remain constant, sales people must continue learning, living, and looking: learning from the past without living there; living in the present by seizing each vital moment of every single day; and looking to the future with hope, optimism, and education. His tips will not only keep your clients happy and add to your income, but will also teach you ideas and principles that will, most importantly, add to the quality of your life. Escaping the Giant Wave

The Worst Vacation Ever! Thirteen-year-old Kyle thought spending a vacation on the Oregon coast with his family would be great. He'd never flown before, and he'd never seen the Pacific Ocean. One evening Kyle is left in charge of his younger sister, BeeBee, while his parents attend an adults-only Salesman of the Year dinner on an elegant yacht. Then the earthquake comes -- starting a fire in their hotel! As Kyle and BeeBee fight their way out through smoke and flame, Kyle remembers the sign at the beach that said after an earthquake everyone should go uphill and inland, as far from the ocean as possible. Giant tsunami waves -- three or four stories high can ride in from the sea and engulf anyone who doesn't escape fast enough. Kyle and BeeBee flee uphill as a tsunami crashes over the beach, the hotel, and the town. The giant wave charges straight up the hillside and through the woods where the children are running for their lives. The perfect vacation has become a nightmare! Somehow Kyle and BeeBee have to outwit nature's fury and save themselves from tsunami terror.

Named One of Riffle's Ten Best Haunted House Books of All Time Built at the turn

of the twentieth century by one of the richest and most powerful men in the world tucked away in the pristine Pocono Mountains, Summer Place, a retreat for the rich and famous, seems the very essence of charm and beauty, "a scene borrowed from a wondrous fairytale of gingerbread houses, bright forests, and glowing, sunny meadows." But behind the yellow and white trimmed exterior lurks an evil, waiting to devour the unwary Seven years ago, Professor Gabriel Kennedy's investigation into paranormal activity at Summer Place ended in tragedy, and destroyed his career. Now, Kelly Delaphoy, the ambitious producer of a top-rated ghost-hunting television series, is determined to make Summer Place the centerpiece of an epic live broadcast on Halloween night. To ensure success, she needs help from the one man who has come face-to-face with the evil that dwells in Summer Place, a man still haunted by the ghosts of his own failure. Disgraced and alienated from the academic community, Kennedy wants nothing to do with the event. But Summer Place has other plans As Summer Place grows stronger, Kennedy, along with the paranormal ghost hunting team, The Supernaturals, sets out to confront and if possible, destroy the evil presence dwelling there.

Kevin Cameron is one of the most widely read motorcycle journalists in the world--for reasons that this collection makes immediately and undeniably clear. Here are the feature articles and columns that have made Cameron a must-read for motorcycle aficionados: stories of the racing life; interviews with top-notch racers; profiles of builders and engineers (like John Britten); accounts of changes in the racing world; analyses of riding techniques and winning technology; reports of races; and popular pieces about engine and suspension theory. With short introductions to each piece, Cameron puts his on-the-spot writing on motorcycle racing into context, and offers a quick, clear history of the best on bikes.

Residential Construction Academy: Carpentry

Abel Gunner is a rock-star with legendary skills both in and out of the bedroom. He swore he wouldn't fall for another woman after being schemed and manipulated by an ex-lover. He kept that vow until he met Gia Mastro. The Dom inside of him awoke the moment he set eyes upon the submissive beauty. His dark soul hungered for her submission and affection. The deep connection they share leaves him desperate for something he never expected - her love. Her pain brings him the pleasure he craves. Her smile calms the beast that rages within him. Gia loves Abel more than life itself, but Abel is disillusioned by love and wrecks Gia in the process. Her life hangs in the balance. His life depends on forgiving her. This couple must face many truths. Is love enough to overcome the damage that dwells within? Gia's experiences with love have been nil until meeting the infamous bad-boy rocker, Abel Gunner. Swept up in a mind-bending, Dom/submissive love affair, she's forced to make decisions that both help and hurt their relationship. They both have to face their demons before they can embrace a future together. In the end, they're faced with two choices: Fight for their love, or die with their demons.

The Guillotine Choice

In 1920's French-controlled Algeria, Kaci is in the frame for the brutal murder of his French boss. Kaci is faced with a stark choice: name his cousin as the killer and win his freedom, or keep quiet and face 25 years' hard labor in the infamous Devil's Island penal colony. Either way, one of them is destined for the world's worst prison--a hell on earth that few men survive. The Guillotine Choice is a novel based on the true story of an Algerian man's years in one of history's most notorious prisons. A real-life Shawshank Redemption, it is an inspirational story of endurance and the triumph of dignity over despair in almost unimaginably horrific conditions.

Eighteen year old Rosalind, a German Catholic descendant, left South Africa for Israel with her doctor boyfriend, Foxy, so they could pursue their dream of helping the wounded soldiers together. But when his jealous temper again gets the better of him, she decides to end their relationship, but still continue her nursing studies. When she's assigned to Ward 21, Rosalind finds herself inexplicably drawn to Eyal, the bearded soldier with the sparkling brown eyes who, even laid up in a full-body cast, asks her out—and teaches her about passion and sex. Though Rosalind struggles to understand her confusing emotions toward Eyal, who arouses her physically but whose interests and upbringing are so different from her own, she eventually accepts his marriage proposal. 'Together They Overcame' offers a surprisingly honest and explicit depiction of a newlywed couple's first two years of sexual gratification in marriage as they face family drama, a mother-in-law's hostilities towards the wife because her mother is both German and Catholic, cultural prejudice, and the hardships in a young country in the process of establishing itself. Juliet Aharoni's novel, 'Together They Overcame', weaves fictionalized versions of her own experiences living in Israel into the romantic tale of a newlywed couple striving against all odds. 'Together They Overcame' is an opposites-attract romance set in Israel after the 1956 Sinai Campaign and not long after the holocaust. Rosalind meets survivors of the holocaust who are still in the healing process from the concentration camps' atrocities. The novel depicts a newly-wed couple experiencing sex for the first time and how their sex-life helps them cope with many difficulties. The author has presented the couple's love-making explicitly but tastefully. Sex plays an important role in the young couple's

connection and development.

Who knew? In the fall of 1914, Canadians had earned a reputation as hard-drinking and poorly disciplined troops. No one expected much from them. Certainly not the British! All they wanted was a sharp salute as the men did what they were told. Prime Minister Sir Robert Borden and his Minister of Militia and Defence, Colonel Sam Hughes, had different ideas. Borden had no choice! When England declared war, Canada was automatically at war too. Hughes, however, was eager to get his boys bloodied before the war was over. He would do anything in his power to get the Canadians into the fight. As the guns sounded in August, the first contingent gathered at Valcartier. Corps of Guide Captain James Llewellyn had trained for this moment, and he was not about to miss out. Gunner Paul Ryan had volunteered to escape his family and to impress a girl. Nursing Sister Samantha Lonsdale had answered the call because she needed a job, and going to war was an adventure. As the months rolled by, it was at Valcartier and Salisbury Plain that they helped forge the Canadian Expeditionary Force into one of the most formidable weapons of the First World War.

Adapted from an updated version of the author's classic Electric Power System Design and Analysis, with new material designed for the undergraduate student and professionals new to Power Engineering. The growing importance of renewable energy sources, control methods and mechanisms, and system restoration has created a need for a concise, comprehensive text that covers the concepts associated with electric power and energy systems. Introduction to Electric Power Systems fills that need, providing an up-to-date introduction to this dynamic field. The author begins with a discussion of the modern electric power system, centering on the technical aspects of power generation, transmission, distribution, and utilization. After providing an overview of electric power and machine theory fundamentals, he offers a practical treatment-focused on applications-of the major topics required for a solid background in the field, including synchronous machines, transformers, and electric motors. He also furnishes a unique look at activities related to power systems, such as power flow and control, stability, state estimation, and security assessment. A discussion of present and future directions of the electrical energy field rounds out the text. With its broad, up-to-date coverage, emphasis on applications, and integrated MATLAB scripts, Introduction to Electric Power Systems provides an ideal, practical introduction to the field-perfect for self-study or short-course work for professionals in related disciplines.

Imagine a top producing real estate salesperson, single mom, bad relationships with men, unhealthy, self-styled dumb blonde who awakens to her destiny of healing bodies, minds and souls. Meet Nadine Mercey, high vibrational healer. This is her personal story. Reading it will change yours. Her mission is raising awareness about the potential in all of us to boost our personal vibration so we can be healthy, in loving relationships, and laughing often and out loud. lol About the Author Nadine Mercey is a high vibrational healer. She grew up in Brantford, Ontario, and confesses to having never done well at formal education. "My mind just didn't work like other people's." Looking back, she recognizes signs of mild autism in her behavior. For twenty years, Nadine worked in real estate, rising to become one of Canada's top realtors. Her success came from an uncanny ability to intuitively understand the needs and motivations of buyers and sellers. Her awakening to the extent of her intuitive capabilities came from selling a haunted house -- one that had been featured in her dreams since childhood. Soon she was

experiencing great vibrational development -- and receiving messages in her mind from voices who identified themselves as angels. She is guided and protected by the Gabrielle Collective and other energies. Nadine conducts readings, often at great distances, during which she communicates with the client's spirit guide(s) and/or angel(s). These entities provide instruction about what is required to raise the person's vibration, in order to restore balance to soul, mind and body. Generally energy flows into the person's body as Nadine visualizes areas that need help. Healing happens through creative visualization, and only when intended for the highest and best interest -- to help that person progress toward his or her predetermined life purpose. Blessed with extraordinarily high vibration, Nadine devotes a portion of her practice to healing other intuitives and to making people aware of their own intuitive capabilities. She is a medical intuitive, who has helped doctors identify illnesses in their patients. Nadine is a dynamic presenter at seminars, and has been the subject of a documentary film. Discussions are underway about hosting a television show. She is also developing her own line of healing products. Nadine lives in Ancaster, Ontario, Canada with her two teenaged sons, Eric and Jaxon. She loves to dance and laugh. And she does own way too many shoes. Reviews "Nadine's healing is amazing. Pro and amateur athletes will gain new awareness and better health by reading her new book." -- Peter Zezel, NHL hockey legend and coach "Nadine Mercy is the most powerful healer that I know and will astonish even her most ardent skeptic. This profound book is a must read!" -- renown psychic medium Karyn Reece (as seen on Lifetime Channel, TLC and Discovery Channel) "Deeper Souls, Less Shoes is a fascinating and breezy narrative. At first I felt like a voyeur, but soon I realized this book was all about me, too! Nadine's tale gives me permission to fully embrace the many odd occurrences that fall into my life daily and to expect that these occurrences or clues, will fit together to create a picture, MY LIFE, larger, more fulfilling and powerful than I can currently imagine. After reading Nadine's book I am filled with confidence to look, and guess what it's there. Thank you, sister! -- Linda Schaumleffel, Olympic athlete and brain fitness expert

This interdisciplinary Handbook combines both mainstream and heterodox economics to assess the nature, scope and importance of leisure activities. Surprisingly, the field of leisure economics is not, thus far, a particularly integrated or coherent one. In this Handbook a wide ranging body of international scholars get to grips with the core issues, taking in the traditional income/leisure choice model of textbook microeconomics and Becker's allocation of time model along the way. They expertly apply economics to some usually neglected topics, such as boredom and sleeping, work-life balance, dating, tourism, health and fitness, sport, video games, social networking, music festivals and sex. Contributions from further afield by Veblen, Sctivosky and Bourdieu also feature prominently. Applying a mix of both theoretical and empirical data, undergraduate students in modules on sport/leisure economics as well as sport/leisure management will find this important resource invaluable.
