### El imperio de la noche (Vampiratas 5)

"Our main problem here is that we allow our mind to wander free when we need it to be focused and to focus on the things we should release." The Lama said."We need to discipline our mind to avoid being dominated by the continuum" He continued."And what is the continuum?" I asked, abruptly interrupting him.He looked at me with a smile and answered:

"What we call continuum, are those thoughts that seem to never leave our mind. Those sounds and memories that keep repeating as a broken old record in our mind without control". I am sharing in these chapters my thoughts and life experiences with the hope I can change my inner continuum, by reminding me of those lessons that have shaped my present mindset. I hope you find something useful in them and maybe they could give you some ideas to create a better continuum for yourself. Thank you from the bottom of my heart for coming with me in this inner quest. May the Light be with you always.

Markette Rochelle had known Wayne Jones since he was young, but it was the hugs that held on too long and staring that lingered longer than comfortable which made her question his feelings all those years. Married Markette's suspicions of the lust that oozed from the young man she'd watched grow up were more than confirmed when they began to transform into her ultimate pleasure realized all over his mother Walinda's house in a record four days of him being home from college. The innocence of Markette's relationship with Wayne was long gone and had changed into a relationship hot with unbridled ravaging and submission of control, all starting that fateful afternoon when she came by to return money to his mom. In Wayne's mind, the perfect arrangement has been created, and he didn't even have to go out looking for it. As for Markette's, husband Joshua Rochelle, he just wanted to please

When Walinda Jones steps in closer for a peek inside the controversial and intriguing underworld of the Rochelles' sex life, Markette may or may not have a story to tell when all the deceit and betrayal finally comes to an end.

Through the Looking-Glass, and What Alice Found There (also known as Alice Through the Looking-Glass or simply Through the Looking-Glass) is an 1871 novel by Lewis Carroll and the sequel to Alice's Adventures in Wonderland (1865). Alice again enters a fantastical world, this time by climbing through a mirror into the world that she can see beyond it. There she finds that, just like a reflection, everything is reversed, including logic (e.g. running helps you remain stationary, walking away from something brings you towards it, chessmen are alive, nursery rhyme characters exist, etc.).Chapter One - Looking-Glass House: Alice is playing with a white kitten (whom she calls "Snowdrop") and a black kitten (whom she calls

"Kitty") when she ponders what the world is like on the other side of a mirror's reflection. Climbing up onto the fireplace mantel, she pokes at the wall-hung mirror behind the fireplace and discovers, to her surprise, that she is able to step through it to an alternative world. In this reflected version of her own house, she finds a book with looking-glass poetry, "Jabberwocky", whose reversed printing she can read only by holding it up to the mirror. She also observes that the chess pieces have come to life, though they remain small enough for her to pick up. Chapter Two - The Garden of Live Flowers: Upon leaving the house (where it had been a cold, snowy night), she enters a sunny spring garden where the flowers can speak; they perceive Alice as being a "flower that can move about". Elsewhere in the garden, Alice meets the Red Queen, who is now human-sized, and who impresses Alice with her ability to run at breathtaking speeds. Chapter Three - Looking-Glass Insects: The Red Queen reveals to Alice that the entire countryside is laid out in squares, like a gigantic chessboard, and offers to make Alice a queen if she can move all the way to the eighth rank/row in a chess match. Alice is placed in the second rank as one of the White Queen's pawns, and begins her journey across the chessboard by boarding a train that jumps over the third row and directly into the fourth rank, thus acting on the rule that pawns can advance two spaces on their first move. She arrives in a forest where a depressed gnat teaches her about the looking glass insects, strange creatures part bug part object (e.g., bread and butterfly, rocking horse fly), before flying away sadly. Alice continues her journey and along the way, crosses the "wood where things have no

names". There she forgets all nouns, including her own name. With the help of a fawn who has also forgotten his identity, she makes it to the other side, where they both remember everything. Realizing that he is a fawn, she is a human, and that fawns are afraid of humans, it runs off (to Alice's frustration).

In the year 2087, life happens fast. Ben Ziegler, the main character and protagonist, is a product of this situation. Ben is a manager for Benevolence Corporation (B Corp.). B Corp is one of three main corporations in The Country (formerly the USA but referred to throughout the novel as The Country). The Country has cut itself off from the world and has fallen behind quite a ways in relation to the other powers of the world. At the corporations and throughout society, there are 3 levels of people. The highest levels are the Founders, who have acquired massive wealth and for the general advancement of mankind, control society. This is a small percent of people in The Country, less than even 0.1% of the people. On his walk home, Ben sees a lovely dark haired tan woman with Greenish-Blue Eyes. Ben doesn't talk to her and instead goes home. He then falls asleep and goes to work the next day. There at work, Ben meets his newest co-worker Jessica and they immediately hit it off. Then, the number 2 at B corp., Jonathan Vilheim II(2), is introduced into the novel. His uncle Jonathan, the first, is the current CEO. But Vilheim 2 is starting to run the entity and was

instrumental in bringing Jessica into town. Vilheim 2 is the antagonist although at first it is unclear whether he is good or evil. Ben's best friend and co-worker Wally Elmore is introduced to the novel. Wally is a Founder himself and is a good friend to Ben. Wally is a little eccentric in his dress and only wears old style Vintage tuxedos. Wally has a twin brother Thomas, who is 5 minutes older than Wally. Thomas is the head of F corp. (Faction) and makes his way to town for the annual Elmore party. Wally and Thomas' relationship is strained because Thomas is a rebel and does not participate in the society of Ultra City (B Corp.) or Los Angeles (M corp.). Thomas, however, is quite smart, and due to his power, the technologically advanced societies must deal with him. Thomas meets Ben and believes he can turn Ben to the Faction. Next, a series of events is set off that threatens to unravel the delicate balance of society in the Year 2087.

"Like Stephen King, he knows how to summon serious scares." - Bentley Little, The Haunting Stoker Award finalist *THE RED CHURCH* For 13-year-old Ronnie Day, life is full of problems: Mom and Dad have separated, his brother Tim is a constant pest, Melanie Ward either loves him or hates him, and Jesus Christ won't stay in his heart. Plus he has to walk past the red church every day, where the Bell Monster hides with its wings and claws and livers for eyes. But the biggest problem is that Archer McFall is the new preacher at the church, and Mom wants Ronnie to attend midnight services with her. Sheriff Frank Littlefield hates the red church for a different reason. His little brother died in a freak accident at the church twenty years ago, and now Frank is starting to see his brother's ghost. And the ghost keeps demanding, "Free me." People are dying in Whispering Pines, and the murders coincide with McFall's return. The Days, the Littlefields, and the McFalls are descendants of the original families that settled the rural Appalachian community. Those old families share a secret of betrayal and guilt, and McFall wants his congregation to prove its faith. Because he believes he is the Second Son of God, and that the cleansing of sin must be done in blood. "Sacrifice is the currency of God,"

portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.
