## **Union and the State Governments**

This book represents the culmination of approximately twelve years of study of Indian music, culture, society and religions. The author spent nine of the twelve years living in India learning music from exponents of the 'classical' tradition. This book was not written as solely an academic evaluation but rather reflects a deep personal interest in the people and music of another culture. As a result of the author's wide-ranging background in Indology and the experience gained from living in the culture, he is able to make definitive statements on the interrelationship between modes of perception, social organisation and musical structure. In so doing, the author has evolved a model which can be used in the study of any culture and music system and thereby makes a significant contribution to ethnomusicology.

### **Śaiva Siddhānta**

The present book being an English translation of a German book entitled Der Saiva Siddhanta by H.W. Schomerus gives a full and documented account of this theistic movement then as now little known in the West. The book quickly became and still is the major reference work in this field in any European language. Schomerus cites siddhanta scriptures on each point. His book thus offers a systematic theology of the movement from its own basic texts many of which are not otherwise available in English.

Focus: Popular Music in Contemporary India examines India's musical soundscape beyond the classical and folk traditions of old to consider the culturally, socially, and politically rich contemporary music that is defining and energizing an Indian youth culture on the precipice of a major identity shift. From Bollywood film songs and Indo-jazz to bhangra hip-hop and Indian death metal, the book situates Indian popular music within critical and historical frameworks, highlighting the unprecedented changes the region's music has undergone in recent decades. This critical approach provides readers with a foundation for understanding an Indian musical culture that is as diverse and complex as the region itself. Included are case studies featuring song notations, first-person narratives, and interviews of well-known artists and emerging musicians alike. Illuminated are issues of great import in India today—as reflected through its music—addressing questions of a "national" aesthetic, the effects of Western music, and identity politics as they relate to class, caste, LGBTQ perspectives, and other marginalized voices. Presented through a global lens, Focus: Popular Music in Contemporary India contextualizes the dynamic popular music of India and its vast cultural impact.

What choral conductor or soloist has not looked around for new ideas for warming up the voice? Here are 200 suggestions all at once! And these creative exercises do more than just warm up the voice: they help to relax the body, train the ear and develop an awareness of dynamics and rhythm. "Klaus Heizmann's collection is a wonderful new resource of ideas and techniques: practical, varied, challenging, relaxing and stimulating. I am always looking for new ideas, as I like to use a different set of warm-ups at every rehearsal with my choirs, and I tend to choose specific exercises to suit the repertoire for the day. This collection gives us 200 excellent "tools-of-the-trade"; they are clearly labeled, intelligently set out, well-designed and extremely useful." (Simon Carrington, Director of Choral Activities, New England Conservatory since 2001; Director of Choral Activities, The University of Kansas 1994-2001; Founder and co-director of the King's Singers 1968-1993)
