Dare the School Build a New Social Order?

This book is a companion book to Principles of Economics by OpenStax, and only contains the

Appendices & Answer Key sections. See ISBN 9781680920338 for Chapters 1-34 of Principles of Economics by OpenStax. Principles of Economics covers the scope and sequence for a two-semester principles of economics course. The text also includes many current examples, including; discussions on the great recession, the controversy among economists over the Affordable Care Act (Obamacare), the recent government shutdown, and the appointment of the United States' first female Federal Reserve chair, Janet Yellen. The pedagogical choices, chapter arrangements, and learning objective fulfillment were developed and vetted with feedback from educators dedicated to the project. First published in 1976, this play from one of Africa's foremost dramatists is in the classic cannon. It is an incisive examination of the problems of independence and freedom in post-colonial Africa states, where few believe they have a stake in the future. In the words

of one of the characters: "It was better while we waited. Now we have nothing to look forward to. We have killed our past and are busy killing our future". Francis Imbuga is a playwright and actor. He is the recipient of the Kenya National Academy of Sciences Distinguished Professional Award in Play Writing.

George S. Counts was a major figure in American education for almost fifty years. Republication of this early (1932) work draws special attention to Counts's role as a social and political activist. Three particular themes make the book noteworthy because of their importance in Counts's plan for change as well as for

their continuing contemporary importance: (1) Counts's criticism of child-centered progressives; (2) the role Counts assigns to teachers in achieving educational and social reform; and (3) Counts's idea for the reform of the American economy.

Humanity hangs on after the fall of civilization in this “wily, funny, rip-roaring, and profoundly provocative page-turner” (Booklist, starred review). After the collapse of the old world—the pandemics, the environmental disasters, the end of oil, the ensuing chaos—people are pursuing a simpler and sometimes happier existence. In Union Grove, New York, the townspeople are preparing for Christmas . . . the perfect time for a long-lost member of the community to return. Robert Earle’s son, Daniel, has come home after two years exploring what is left of the United States. He brings news of three new nations arisen from what was once America—and the dangers and possibilities they may hold. Meanwhile, a horrific murder threatens to turn the community of Union Grove against itself—and what is supposed to be a time of peace and togetherness is overtaken by

suspicion and fear. In this vividly depicted look at a world that may be on our own horizon, “Kunstler skewers everything from kitsch to greed, prejudice, bloodshed, and brainwashing” in a gripping story of hope, hate, and humanity’s last chance at survival (Booklist).

The Interview

World Bank Technical Paper No. 295. The progress made by the countries of Central and Eastern Europe in privatizing state-owned enterprises has created millions of new shareholders. But for the citizenry to buy and sell shares, these countries must develop stock markets and related institutions such as brokerages, clearing and settling organizations, and regulatory agencies. This paper examines the role of capital markets in the new market economies of Central and Eastern Europe and to what extent governments in the region should encourage the development of such markets. The authors address

questions of whether the capital markets will serve merely as a forum for trading stocks or become a source of new equity capital to help restructure the enterprises of the region and whether governments should take a hands-off approach by letting the necessary institutions develop as they are needed or should actively create stock exchanges and establish the overall legal and regulatory framework.

Betrayal in the City

From the renowned author of *The African Trilogy*, a political satire about an unnamed African country navigating a path between violence and corruption. As Minister for Culture, former school teacher M. A. Nanga is a man of the people, as cynical as he is charming, and a roguish opportunist. When Odili, an idealistic young teacher, visits his former instructor at the ministry, the division between them is vast. But in the eat-and-let-eat atmosphere, Odili's idealism soon collides with his lusts—and the two men's personal and political tauntings threaten to send their country into chaos. When Odili launches a vicious campaign against his former mentor for the same seat in an election, their mutual animosity drives the country to revolution. Published, prophetically, just days before Nigeria's first attempted coup in 1966, *A Man of the People* is an essential part of Achebe's body of work.
