Build confident, capable writers who own the concrete skills necessary to excel at composing evidence based expository or argumentative short responses. In order to succeed on standardized tests and a wide range of writing assignments that call for writing to a prompt, students must control the content and mechanics of a logically structured, grammatically correct paragraph. California Teacher of the Year award winner and celebrated trade author Alan Sitomer outlines the Triple C writing system--a sequence of instructional steps that helps students concisely and convincingly in response to a prompt. Mastering Short-Response Writing is a particularly effective instructional tool for raising the skill sets of low-performing writers.

Vocabulary skills come easy when practice is fun! If you are looking for extra vocabulary help for your middle school student, you will find this book an invaluable resource. Featuring hundreds of essential vocabulary words, this book offers extensive opportunities for students to learn the vocabulary found in sixth, seventh, and eighth grade curriculums. Each of the book's dozens of lessons focuses on a group of words that will strengthen your student's vocabulary. After the introduction of new vocabulary, each lesson includes three worksheets designed to make learning new words easy and fun. Vocabulary Grades 6-8 features:

- More than 500 words appropriate for students in grades 6 through 8
- 45 engaging lessons that will help your student learn both meaning and usage
- Vocabulary related to math, social studies, science, health, and time
- A puzzle format that makes practicing vocabulary fun
- The tools to master synonyms, antonyms, homophones, and easily confused words
- Guidance on learning prefixes, suffixes, and compound words
- An alphabetical word list at the end of the book that makes looking up vocabulary easy

After completing this workbook, your middle school student's new word skills will help your child to excel in both the classroom and on standardized tests.

Childhood Education

Teaching Children to Write

Writing is a challenging task for many children. To address this issue, many educational researchers advocate for schools to

implement a multi-tiered systems of support (MTSS) model where struggling writers can be detected as early as kindergarten and provided with intervention programming to improve their skills and hopefully not need long-term placement in special education. Traditionally, schools have employed the wait-to-fail model where children were offered the opportunity to learn to read, write, and do math in the first few years of elementary school; if they still struggled at the end of third grade (age eight), then they would be assessed for special education. The problem with this was not only a delayed assessment timeline, but also the standardized tests not having an adequate set of questions to assess early-elementary grade skills, as well as the ethical problems and racial/ethnic biases of test questions. MTSS provides educators with a renewed emphasis on early intervention and progress-monitoring assessment once or twice a week to monitor each student's skills and make instructional changes to promote success. This book offers a description and case examples of how schools and teachers can apply MTSS concepts for writing.

Preventing Reading Difficulties in Young Children

Mastering the Grill

Presents lessons and instructional aides that cover character, point of view, setting, and theme.

Mastering the Draft

Give students in grades 3–5 step-by-step strategies to achieve success using Mastering Math Facts: Multiplication and Division. This 128-page book provides mathematical, spatial, and kinesthetic strategies that are perfect for various learning styles and ability levels. It supports NCTM standards and includes reproducibles and hands-on activities for individual and whole-group instruction.

Includes music.

Early Years

Easy-to-use editing lessons that focus on grammar, spelling, punctuation, and conventions in writing.

The Century Dictionary and Cyclopeda: The Century dictionary prepared under the superintendence of W. D. Whitney

While most children learn to read fairly well, there remain many young Americans whose futures are imperiled because they do not read well enough to meet the demands of our competitive, technology-driven society. This book explores the problem within the context of social, historical, cultural, and biological factors. Recommendations address the identification of groups of children at risk, effective instruction for the preschool and early grades, effective approaches to dialects and bilingualism, the importance of these findings for the professional development of teachers, and gaps that remain in our understanding of how children learn to read. Implications for parents, teachers, schools, communities, the media, and government at all levels are discussed. The book examines the epidemiology of reading problems and introduces the concepts used by experts in the field. In a clear and readable narrative, word identification, comprehension, and other processes in normal reading development are discussed. Against the background of normal progress, Preventing Reading Difficulties in Young Children examines factors that put children at risk of poor reading. It explores in detail how literacy can be fostered from birth through kindergarten and the primary grades, including evaluation of philosophies, systems, and materials commonly used to teach reading.

This nostalgic flashback to a simpler time is filled with illustrated projects that range from the everyday (birdhouse, bean shooter) to the unusual (ice glider, magnetic theater).

The Boy Mechanic

Conventions and Craft is six, grade-specific kits for grades K-5. Each kit provides a year's worth of conventions instruction (i.e., sentence structure, grammar, punctuation and capitalization, word consciousness, and general editing), with one concept, or "understanding," covered each week in a series of "micro-workshops"--10 minutes of instruction, most likely at the start of writing time. Each grade-specific kit includes: - 192-page, spiral-bound Teacher's Guide - An anthology of 14 full-color short texts - 6 informational trade books by well-known nonfiction authors - Access to a companion website with assessment tools and videos of Linda Hoyt conducting model lessons - Sample Student Papers for use in lessons - A Skills Continuum inspired by CCSS, TEKS, and VSOL - Sample Year-Long Plans
