Five new plays. *Elegy* (by Jodi Gallagher): Two sisters, unlike, yet sharing a lust for life. When one dies, the other finds herself in a void that can only be created by the loss of a loved one. A tender but frank account of a family tragedy. *So Wet* (by Samantha Bews): Silv, a twenty-something, is a professional woman on the move and determined to make every post a winner -- and that's just her social life. A witty tale of longing, laced with a touch of the erotic. *Like a Metaphor* (by Gabrielle MacDonald): A language journey, in four and a half monologues, through a series of refractions, turning points and tiny visceral moments. A woman's sensual examination of bodily experiences. *Baby X* (by Campion Decent): Georgie and Evelyn are a lesbian couple in search of a sperm donor. A madcap comedy that takes a recipe for family life, throws it in a blender with a generous dollop of queer consciousness, and celebrates the result. *Violet Inc.* (by Pam Leversha): *Violet Fahrenheit*: brilliant, savage, inspiring -- her spirit radiates the lovers and acolytes who surround her. Thirty years later, they are still struggling to exorcise her legacy. A vibrant journey through social and personal change.

Mercedes-Benz 'Fintail' Models charts the development of the W110, W111 and W112 'Fintail' (or 'Heckflosse') series, the line that helped revive the Mercedes-Benz brand in the post-war years. With a unique combination of exceptional engineering and a timeless beauty, even the most basic of these vehicles has a charm that is difficult to find in the majority of cars today. After outlining the company's history, the book looks at the development of the first of the 'Fintail' models - the W111- and its launch at the 1959 Frankfurt Show. It also looks at the closely related 1.9 litre W110 and 3.0 litre W112 models, with the vehicles sold in the German, US and UK markets covered in detail. Relating the complete story of the Mercedes-Benz 'Fintail' models from the 1950s to 1970s, it provides an ideal resource for research before restoration, or for detailing existing show cars. Gives background to development, a full production history and comprehensive specification details for all models. Superbly illustrated with 357 colour photographs including period and advertising images sourced from the Mercedes-Benz factory in Stuttgart.

You haven't gotten yourself a R107 yet? Too bad, the good ones can cost a small fortune today and they have only one way to go: UP! But don't worry, plenty of them have been built and plenty of them are still around. Problem is, which one is the right one for you? Can you imagine that even a low mileage, good looking R107 can still far exceed your wildest imaginations, when it comes to restoration costs? Everybody seems to want a late model 560SL. Why not an early 450SL for half the money? The joy and pride of ownership is the same, trust me. Or how about one of the former longtime underdogs, an SLC? Also they start to appreciate, a few of them even very fast, faster than a mint 560SL. If any of this is of interest, then this new book (published already earlier as e-book) is for you. It does not only deal with development and history, it also comes with a comprehensive buyer's guide for both the SL and SLC. This includes a look at their price development over the past years. Another focus has been the VIN and data card, so that you have a better understanding, how they were equipped and to which market they have been shipped first.
