### Returning Home from Iraq and Afghanistan

This book traces the lineage & honors of the currently active 55 Army National Guard Armor & Cavalry regiments. The lineage of a unit is its military history. It includes the organization of a unit, its entry into Federal service, & any reorganizations, redesignations or conversions the unit may have undergone. The honors of a unit consist of wartime campaigns & unit decoration streamers. Lineages for National Guard units are published at the regimental level as are the lineage & honors of the regiments included in this book. If a regiment is authorized a distinctive unit insignia it is shown to the left of its regimental designation.

### Annual Report of the Chief of the National Guard Bureau

Based on Mark Gungor's wildly popular seminar, Laugh Your Way to a Better Marriage® builds on Gungor's success with tens of thousands of couples who credit him with enriching, and even saving, their marriages. By using his unique blend of humor and tell-it-like-it-is honesty, he helps couples get along and have fun doing it. Through exploring a variety of subjects including the myth of a "soul mate," the different ways men and women think, the conflicting levels of libido, and the necessity to forgive, Gungor proves that the key to marital bliss is not romance or destiny -- it's work and skill. Couples need to work hard at maintaining their relationship and to have the skills to pull it off. The longer spouses wait to learn these skills, the greater their chance of wanting to bail, yet Gungor makes it

easy for couples to bring their relationship to the next level.

Trench Knives and Mustard Gas: With the 42nd Rainbow Division in France is the memoir of a soldier on the front lines of World War I. Hugh Thompson's memoirs of his time in France demonstrate a keen eye for detail and a penchant for philosophy. Thompson combines the fast-paced prose of the jazz age and the passionate observations of an engaged intellectual. Originally serialized in the Chattanooga Times in 1934, this newly edited version allows the author to tell his story to a whole new generation. Thompson takes the reader on an intense journey with the 168th regiment of the 42nd Rainbow Division through the villages, towns, battlefields, and hospitals of France. He points out the sights along the way and has a knack for compressing a complex reflection on life into a single sentence. Severely wounded in his arm and back, Thompson reassesses his situation after visiting comrades who lost arms or legs. "I went back to my tent," he recalls, "almost ashamed of my own lucky wounds." Homesick for the States during his first months overseas, Thompson discovers that his platoon has become his second family. He becomes increasingly estranged from his old one and accustomed to the war's distortion of time and values. Friendships form and disappear in the hour it takes a stranger to die. When he is wounded, Germans serve as his stretcher bearers. And things never happen when they take place, but later when one learns of them from a letter or from a soldier passing through. War does not destroy the physical man. It leads to strange experiences. Trench Knives and Mustard Gas brings the front lines of World War I, the Great War, to the hearts and minds of its readers. The book is an indispensable guide into the past, told by a man who was there.

### **Army Support During the Hurricane Katrina Disaster**

Nearly 1.9 million U.S. troops have been deployed to Afghanistan and Iraq since October 2001. Many service members and veterans face serious challenges in readjusting to normal life after returning home. This initial book presents findings on the most critical challenges, and lays out the blueprint for the second phase of the study to determine how best to meet the needs of returning troops and their families.

World War I World War II Global War on Terrorism The 145th Armored Regiment, Ohio Army National Guard, is a parent regiment under the U.S. Army Regimental System, with headquarters at Stow, Ohio. It currently consists of the 1st Battalion, 145th Armored Regiment, an 900-soldier combined arms battalion of the Ohio Army National Guard located throughout northeast Ohio. For command and control purposes within the Ohio Army National Guard it is a subordinate battalion of the 174th Air Defense Artillery Brigade. As a combined arms battalion, the 1st Battalion, 145th Armored Regiment, is able to deploy two mechanized infantry companies, two armor companies, a support company, a headquarters company, and a battalion headquarters in order to accomplish its federal, state, and community missions. Reorganized and redesignated from the 1st Battalion, 107th Cavalry Regiment on 1 September 2007, the first mobilization and deployment of the 1st Battalion, 145th Armored Regiment in its current form was the 2009 Multinational Force and Observers MFO-52 mission responsible for multiple observation posts throughout Egypt's Sinai Peninsula and the operation of MFO South Camp at Sharm el Sheik, Egypt, in partnership with ten other participating nations. Since 11 September 2001, however, subordinate elements and individual soldiers that now comprise the unit have deployed to Operation Noble Eagle, Operation Enduring Freedom (Europe), Kosovo

### **Maneuver and Fire Power: The Evolution of Divisions and Separate Brigades ( Cloth Edition format only)**

At midday on May 4, 1970, after three days of protests, several thousand students and the Ohio National Guard faced off at opposite ends of the grassy campus Commons at Kent State University. At noon, the Guard moved out. Twenty-four minutes later, Guardsmen launched a 13-second, 67-shot barrage that left four students dead and nine wounded, one paralyzed for life. The story doesn't end there, though. A horror of far greater proportions was narrowly averted minutes later when the Guard and students reassembled on the Commons. The Kent State shootings were both unavoidable and preventable: unavoidable in that all the discordant forces of a turbulent decade flowed together on May 4, 1970, on one Ohio campus; preventable in that every party to the tragedy made the wrong choices at the wrong time in the wrong place. Using the university's recently available oral-history collection supplemented by extensive new interviewing, Means tells the story of this iconic American moment through the eyes and memories of those who were there, and skillfully situates it in the context of a tumultuous era.

From Derf Backderf, the bestselling author of My Friend Dahmer, comes the tragic and unforgettable story of the Kent State shootings. On May 4, 1970, the Ohio National Guard gunned down unarmed college students protesting the Vietnam War at Kent State University. In a deadly barrage of 67 shots, 4 students were killed and 9 shot and wounded. It was the day America turned guns on its own children—a shocking event burned into our national memory. A few days prior, 10-year-old Derf Backderf saw those same Guardsmen patrolling his nearby hometown, sent in by the governor to crush a trucker strike. Using the journalism

skills he employed on *My Friend Dahmer* and *Trashed*, Backderf has conducted extensive interviews and research to explore the lives of these four young people and the events of those four days in May, when the country seemed on the brink of tearing apart. *Kent State: Four Dead in Ohio*, which will be published in time for the 50th anniversary of the tragedy, is a moving and troubling story about the bitter price of dissent—as relevant today as it was in 1970.

## **Buckeye Guard**

The astonishing, never before told story of the greatest rescue mission of World War II—when the OSS set out to recover more than 500 airmen trapped behind enemy lines in Yugoslavia. During a bombing campaign over Romanian oil fields, hundreds of American airmen were shot down in Nazi-occupied Yugoslavia. Local Serbian farmers and peasants risked their own lives to give refuge to the soldiers while they waited for rescue, and in 1944, Operation Halyard was born. The risks were incredible. The starving Americans in Yugoslavia had to construct a landing strip large enough for C-47 cargo planes—without tools, without alerting the Germans, and without endangering the villagers. And the cargo planes had to make it through enemy airspace and back—without getting shot down themselves. Classified for over half a century for political reasons, the full account of this unforgettable story of loyalty, self-sacrifice, and bravery is now being told for the first time ever. *The Forgotten 500* is the gripping, behind-the-scenes look at the greatest escape of World War II. “Amazing [and] riveting.”—James Bradley, *New York Times* bestselling author of *Flags of Our Fathers*

## **The Taft Years, 1999-2006**

Between 1950 and 1953, 138,600 Army National Guardsmen -- 43 percent of the force -- were called up for federal service. In *Under Army Orders* William M. Donnelly illuminates one of the more obscure aspects of U.S. involvement in the Korean conflict, focusing on what it meant to be a citizensoldier caught up in an international struggle that raged both hot and cold. Donnelly begins by examining the reconstitution of the guard after World War II. Next he offers the first in-depth look at the army's use of the guard during the Korean conflict, detailing the experiences of guard units mobilized during this period by following them from the alert notice to postmobilization training and then through their use by the army for the remainder of their federal service. Previous attention given to the guard during the Korean War has focused on the units sent to Korea; while those units provided critical reinforcements for the Eighth Army in 1951, they amounted to only 14 percent of mobilized units. *Under Army Orders* also sheds light on what it was like to live in America during the early Cold War. The National Guard's dual state-federal status, its strong local ties, and its powerful lobbying organization made it a force at all levels of American society during this period. And through the mobilization of guard units, the costs of the Truman administration's decisions were passed on to many American communities and homes. The partial mobilization of the guard for the Korean War raised questions of equity of sacrifice that would foreshadow events fifteen years later. Military historians and general readers alike can mark the half-century that has passed since the Korean War by reading Donnelly's study. Military planners and political leaders will consult this book when charting the guard's role in conflicts yet to come.

### **The Fourteenth Ohio National Guard--**

What ever happened to our inalienable rights? The Constitution was once the bedrock of our country, an unpretentious parchment that boldly established the God-given rights and freedoms of America. Today that parchment has been shred to ribbons, explains Fox News senior judicial analyst Judge Andrew P. Napolitano, as the federal government trounces state and individual rights and expands its reach far beyond what the Framers intended. An important follow-up to Judge Napolitano's best-selling Constitutional Chaos, this book shows with no-nonsense clarity how Congress has "purchased" regulations by bribing states and explains how the Supreme Court has devised historically inaccurate, logically inconsistent, and even laughable justifications to approve what Congress has done. It's an exciting excursion into the dark corners of the law, showing how do-gooders, busybodies, and control freaks in government disregard the limitations imposed upon Congress by the Constitution and enact laws, illegal and unnatural, in virtually every area of human endeavor. Praise for The Constitution in Exile from Left, Right, and Center "Does anyone understand the vision of America's founding fathers? The courts and Congress apparently don't have a clue. But Judge Andrew P. Napolitano does, and so will you, if you read The Constitution in Exile."-BILL O'REILLY "Whatever happened to states rights, limited government, and natural law? Judge Napolitano, in his own inimitable style, takes us on a fascinating tour of the destruction of constitutional government. If you want to know how the federal government got so big and fat, read this book. Agree or disagree, this book will make you think."-SEAN HANNITY "In all of the American media, Judge Andrew P. Napolitano is the most persistent, uncompromising guardian of both the letter and the spirit of the Constitution, very much including the Bill of Rights. Increasingly, our Constitution is in clear and present danger. Judge Napolitano--in The Constitution in Exile--has challenged all Americans across party lines to learn the extent of this constitutional crisis." -NAT HENTOFF "Judge Napolitano engages here in what I do every day on my program-make you think. There's no question that potential Supreme Court nominees and what our Constitution says and doesn't say played a major role for many voters in our last couple of elections. What the judge does here is detail why the federal government claims it can regulate as well as tax everything in sight as it grows and grows. Agree or disagree with him-you need to read his latest book, think, and begin to arm yourself as you enter this important debate." -RUSH LIMBAUGH "At a time when we are, in Benjamin Franklin's words, sacrificing essential liberty to purchase a little temporary safety, here comes the judge with what should be mandatory reading for the executive branch cronies who are busy stealing power while they think we're not watching. Thank goodness the judge is watching and speaking truth to power. More than a book, this is an emergency call to philosophical arms, one we must heed before it's too late." -ALAN COLMES

### **Reserve Component Personnel Issues**

## **67 Shots**

## **UFO Frontier**

The term "Reserve Component" is used to refer collectively to the seven individual reserve components of the armed forces: the Army Nat. Guard (NG), the Army Reserve, the Navy Reserve, the Marine Corps Reserve, the Air NG, the Air Force Reserve, and the Coast Guard Reserve. These reserve components "provide trained units and qualified persons available for active duty in the armed forces." Since 1990, reservists have been involuntarily activated six times, incl. two large-scale mobilizations for the Persian Gulf War and in the aftermath of 9/11. This increasing use of the reserves has led to interest in funding, equipment, and personnel policy. This report provides an overview of key reserve component personnel issues. This is a print on demand report.

This is a print on demand edition of a hard to find publication. Hurricane Katrina, in Aug. 2005, was the costliest hurricane as well as one of the five deadliest storms in U.S. history. It caused extensive destruction along the Gulf coast from central Florida to Texas. Some 22,000 Active-Duty Army personnel assisted with relief-and-recovery operations in Mississippi and Louisiana. At the same time, all 50 states sent approx. 50,000 National Guard personnel to deal with the storm's aftermath. Because the media coverage of this disaster tended toward the sensational more than the analytical, many important stories remain to be told in a dispassionate manner. This study offers a dispassionate analysis of the Army's response to the natural disaster by providing a detailed account of the operations in Louisiana and Mississippi.

## **The Forgotten 500**

### **Integration of the Armed Forces, 1940-1965**

Between 1965, when President Lyndon B. Johnson defined affirmative action as a legitimate federal goal, and 1972, when President Richard M. Nixon named one of affirmative action's chief antagonists the head of the Department of Labor, government officials at all levels addressed racial economic inequality in earnest. Providing members of historically disadvantaged groups an equal chance at obtaining limited and competitive positions, affirmative action had the potential to alienate large numbers of white Americans, even those who had viewed school desegregation and voting rights in a positive light. Thus, affirmative action was -- and continues to be -- controversial. Novel in its approach and meticulously researched, David Hamilton Golland's *Constructing Affirmative Action: The Struggle for Equal Employment Opportunity* bridges a sizeable gap in the literature on the history of affirmative action. Golland examines federal efforts to diversify the construction trades from the 1950s through the 1970s, offering valuable insights into the origins of affirmative action--related policy. *Constructing Affirmative Action* analyzes how community activism pushed the federal government to address issues of racial exclusion and marginalization in the construction industry with programs in key American cities.

“A raw, intimate look at the impact of combat and the healing power of friendship” (People): the lives of three women deployed to Afghanistan and Iraq, and the effect of their military service on their personal lives and families—named a best book of the year by Publishers Weekly. “In the tradition of Adrian Nicole LeBlanc, Richard Rhodes, and other masters of literary journalism, *Soldier Girls* is utterly absorbing, gorgeously written, and unforgettable” (The Boston Globe). Helen Thorpe follows the lives of three women over twelve years on their paths to the military, overseas to combat, and back home...and then overseas again for two of them. These women, who are quite different in every way, become friends, and we watch their interaction and also what happens when they are separated. We see their families, their lovers, their spouses, their children. We see them work extremely hard, deal with the attentions of men on base and in war zones, and struggle to stay

connected to their families back home. We see some of them drink too much, have affairs, and react to the deaths of fellow soldiers. And we see what happens to one of them when the truck she is driving hits an explosive in the road, blowing it up. She survives, but her life may never be the same again. Deeply reported, beautifully written, and powerfully moving, *Soldier Girls* is “a breakthrough work. What Thorpe accomplishes in *Soldier Girls* is something far greater than describing the experience of women in the military. The book is a solid chunk of American history. Thorpe triumphs” (The New York Times Book Review).
