Many of the customs and traditions found herein are extinct even in today's Poland. World wars, massive immigration, the loss of the oral tradition, urbanization and politics have changed the face of a once agrarian people and their accompanying life style. In the U.S., the desire for membership within the "melting pot," marriages outside one's ethnic group, movement to the suburbs away from the "old" communities where customs and traditions were once strong, further weakened the link. Although the purpose and meaning may have been lost and forgotten, the oczepiny ceremony (the unveiling) is still the mainstay of almost every wedding where the bride declares Polish heritage.

The heart-breaking story of Joseph Tenenbaum who visited Poland in 1945 after the end of the Second World War in search of his Jewish relatives. “I can only report fragments of what I saw and heard or read during my two and a half months abroad. But these fragments seem to me to be not only of moment to Jews. Despite all the investigating commissions and international committees on behalf of Jewry, the world knows little enough of the depths of human degradation or the great surges of spirit and individual flashes of heroic greatness that have been revealed. There is a clash of two worlds, a clash that has not ceased with the death of Hitler in the gasoline flames in the cellars of the German chancellery. The sparks from the body-burning stakes at the Janowska camp in Lwow, of the ovens at Majdanek, Treblinka and Belzec, and the flames of the chimneys at Birkenau, Sobibor, Oranienburg and Mauthausen, have seared the human soul and scarred the human conscience. We cannot avoid facing the truth simply by ignoring it or driving it underground. The sanity of man, his very soul, requires a thorough catharsis which can come only through frank discussion, through revealing the naked evil in all its deformity and horror. We must think through all the implications, past and present, and realize their full dimensions. Only thus can sanity and moral strength be preserved for future generations. In short, while this book aims at giving a frank presentation of facts and conditions, it is hoped that it may offer a modest educational contribution towards a better world.”—From the Author’s Introduction

Jędrzej Kitowicz, a parish priest in central Poland, with a military and worldly past behind him, putting the affairs of his parish in order, in his mature years commenced to compose a colorful chronicle of all aspects and walks of life under king August III. He wrote apparently mostly from memory, creating in the process the most complete record that exists of society in eighteenthcentury Poland. A man of omnivorous tastes, a keen sense of observation, and a wry—at times bawdy—sense of humor, Kitowicz's realistic and robust literary technique has been compared for its earthiness and evocativeness to Flemish genre painting. A noteworthy example of eighteenthcentury writing and narrative talent, his *Opis* reveals an astounding visual memory and a modern ethnographer's eye for what constitutes a society's material culture. The present book consists of twentyfour chapters, excerpts from Father Kitowicz's *Opis*, complete with a comprehensive

This study of Polish folk music is especially enlightening as it reveals both the history and practice of a musical tradition and offers an illuminating view of a culture and its social activities. Within her study, Anna Czekanowska analyses the vocal and instrumental traditions of Polish folk music, tracing the background history, the influences of geography and politics, and the practice, often within contemporary society, of such social events as the harvest, the solstice and weddings. The function of folk culture within contemporary life, for both Polish and non-Polish inhabitants of the country, is also examined. Professor Czekanowska also discusses the birth of Polish ethno- musicology as a discipline and details some methodological aspects for research. This study contributes to a greater

Abandoning the traditional nationalist approach to Polish history, Norman Davies instead stresses the country's rich multinational heritage and places the development of the Jewish German, Ukrainian, and Lithuanian communities firmly within the Polish context. Davies emphasizes the cultural history of Poland through a presentation of extensive poetical, literary, and documentary texts in English translation. In each volume, chronological chapters of political narrative are interspersed with essays on religious, social, economic, constitutional, philosophical, and diplomatic themes. This new edition has been revised and fully updated with two new chapters to bring the story to the end of the twentieth century.

### **The Art of Polish Cooking**

Lavender vinegar, saffron wafers, chicken baked with prunes, pears stewed with cucumbers and figs . . . there is something wonderfully inviting about the unusual and exotic flavors that came to the medieval Polish table. By turns robust and refined, and capturing all the richness and complexity of Poland in the Middle Ages, this is cookery that flourished at the crossroads of Western and Oriental foodways. This is the first book of its kind in English to explore the fascinating culinary history of medieval Poland. It represents the fruits of a twenty-year collaboration between two distinguished food historians, William Woys Weaver and the late Maria Dembinska. Freely adapted from a pioneering work first published by Dembinska in 1963, this new edition explores the subject of Polish medieval cuisine through archaeology, material culture, and ethnography, along with other perspectives and techniques. Topics examined include not just the personal eating habits of kings, queens, and nobles but also those of the peasants, monks, and other social groups not generally considered in medieval food studies. To appreciate the tastes and textures of medieval Polish cookery, there is simply no better way than to experience the food firsthand. Weaver has included thirty-five carefully reconstructed recipes, from courtier's pottage, a one-pot dinner popular with rich peasants and petty nobles, to game stewed with sauerkraut, to a court dish of baked fruit, to Polish hydromel, an easily made drink flavored with honey and fennel. With ingredients such as rosewater, cucumbers, saffron, and honey, these
