"Atoms First seems to be the flavor of the year in chemistry textbooks, but many of them seem to be little more than rearrangement of the chapters. It takes a master like McQuarrie to go back to the drawing board and create a logical development from smallest to largest that makes sense to students."---Hal Harris, University of Missouri-St. Louis "McQuarrie's book is extremely well written, the order of topics is logical, and it does a great job with both introductory material and more advanced concepts. Students of all skill levels will be able to learn from this book."---Mark Kearley, Florida State University This new fourth edition of General Chemistry takes an atoms-first approach from beginning to end. In the tradition of McQuarrie's many previous works, it promises to be another ground-breaking text. This superb new book combines the clear writing and wonderful problems that have made McQuarrie famous among chemistry professors and students worldwide. Presented in an elegant design with all-new illustrations, it is available in a soft-cover edition

to offer professors a fresh choice at an outstanding value. Student supplements include an online series of descriptive chemistry Interchapters, a Student Solutions Manual, and an optional state-of-the-art Online Homework program. New York Times bestselling author Lynsay Sands delivers a "madcap escapade" (Publishers Weekly) in this contemporary romance about a quirky inventor and unexpected love. Shy Jane Spyrus loves gadgets. She can build anything B.L.I.S.S. needs in the international organization's fight against crime—although its agents aren't exactly lining up at her door. Some of them think her inventions are a little too . . . well, innovative. Like her shrink-wrap prophylactic constraints or her spray-on truth serum. Of course, you can't use wacky inventions to fix all your problems; Jane knows that better than anyone. Her neighbor has been kidnapped, driving that point home. She will have to team up with another human being—and Abel Andretti arrives just in time. He will help Jane find her neighbor, stop a villain, and, most of all, he will show Jane how to love the daylights out of something without batteries.

The Surf Café Cookbook is the first book by Jane and Myles Lamberth, proprietors of Shells Café in Strandhill on the west coast of Ireland. Jane and Myles met eight years ago when they were both working in the UK. They spent summers working in restaurants by the sea in Cornwall so they could go surfing, and winters running chalets in ski resorts in the Alps. Eventually they felt the need to put some roots down so they took the plunge and opened their own place, Shells Café, in March 2010. And they haven't looked back since. It's the perfect place for Jane and Myles to create great food and live the outdoor lifestyle they love. They use fresh organic seasonal produce - vegetables from the bountiful Irish soil, and fish from the wild Atlantic. From foraging on the beach to creating the perfect picnic to making homemade Baileys, The Surf Café Cookbook focuses on locally-produced food that's unpretentious and tasty. It's food for sharing with friends and family, around the kitchen table or on a beach blanket thrown on the sand. It's contemporary Irish cooking with a soupçon of salty air. And the Surf Café Cookbook is more than just a cookbook, it also includes all sorts of useful tips ranging from how to gut a fish to making crafty home accessories for special occasions. This is coastal living at it's best - cooking, eating and living the Irish way. In this book Myles and Jane want to share their food adventures with you.

bestselling author Brad Thor is back with his most gripping thriller yet! In ancient texts, there are stories about men who struck from the shadows, seemingly beyond the reach of death itself. These men were considered part angel, part demon. Their loyalty was to their families, their friends, and their kings. You crossed these men at your peril. And once crossed, there was no crossing back. They were fearless; men of honor who have been known throughout history by different names: Spartan, Viking, Samurai. Today, men like these still strike from the shadows. They are highly prized intelligence agents, military operatives, and assassins. One man is all three. Two days ago, that man was crossed—badly. Now, far from home and surrounded by his enemy, Scot Harvath must battle his way out. With no support, no cavalry coming, and no one even aware of where he is, it will take everything he has ever learned to survive. But survival isn't enough. Harvath wants revenge. In the most explosive novel Brad Thor has ever written, page after captivating page of action, intrigue, loyalty, and betrayal will keep you hooked until the very last sentence.

Schwartz reveals the hypocrisy of the Saudi regime, whose moderate facade conceals state-sponsored repression and terrorism. He also raises troubling questions about Wahhabi infiltration of America's Islamic community and about U.S. oil companies sanitizing Saudi Arabia's image for the West. This sharp analysis and eye-opening expose illuminates the background to the September 11th terrorist attacks and offers new approaches for U.S. policy toward its closest ally in the Middle East.

Bach then went on to become the first rock star to grace the Broadway stage, with starring roles in Jekyll & Hyde, Jesus Christ Superstar and The Rocky Horror Picture Show. He also appeared for seven seasons on the hit television show The Gilmore Girls. In his memoir, Bach recounts lurid tales of excess and debauchery as he toured the world with Bon Jovi, Aerosmith, Motley Crue, Soundgarden, Pantera, Nine Inch Nails and Guns N' Roses. Filled with backstage photos from his own personal collection, 18 And Life on Skid Row is the story of hitting it big at a young age, and of a band that broke up in its prime. It is the story of a man who achieved his wildest dreams, only to lose his family, and then his home. How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business. Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture,

in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobs while also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In *A Slice of the Pie* Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. *A Slice of the Pie* will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

Antistatic sprays from several different manufacturers are examined. The sprays are examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center
