(© 2010) The Subcommittee on the Catechism, United States Conference of Catholic Bishops, has found that this catechetical high school text is in conformity with the Catechism of the Catholic Church and fulfills the requirements of Core Course V of the Doctrinal Elements of a Curriculum Framework for the Development of Catechetical Materials for Young People of High School Age.Meeting Jesus in the Sacraments reveals the sacraments as the definitive way that Jesus remains present to the Church and the world today. The text explores concrete ways for students to understand the sacraments, participate in their rites, and benefit from their graces.The text is organized around the traditional definition of sacrament from the Catechism of the Catholic Church--an efficacious sign of grace, instituted by Christ and entrusted to the Church, by which divine life is dispensed to us by the work of the Holy Spirit. This definition is clarified by organizing the chapters around four dimensions of the sacrament: memorial, celebration, communion, and transformation.Through regular placement of "For Reflection" panels and assignments that focus on deeper research, developing a personal and communal prayer life, and active transformation of self and society, this text allows students to come to know Jesus through participation in the sacraments and the grace of their effects. Selections from Catholic blogs and profiles of saints offer a practical application of the sacrament to teenagers.

Students and social workers preparing for the social work clinical licensure exam will find an invaluable study resource in both the Social Work ASWB(R) Advanced Generalist Exam Guide and the Social Work ASWB(R) Advanced Generalist Practice Test.Written by a prominent social work leader and trainer for social work licensing exams in the United States, these materials are based on years of time-tested exam prep workshops conducted by the author. The guide is comprehensive yet focuses on the material most likely to be included on the exam, so readers can prioritize information as they study. A self-assessment section helps identify strengths and weaknesses before tackling the material. The author shares her extensive knowledge of the exam by providing useful test-taking strategies and tips for overcoming test anxiety. Content includes human development, human behavior in the environment, diversity, addictions, assessment and diagnosis, treatment planning, clinical interventions, case management, and professional values and ethics. The 170 questions

contained in the full-length practice test with answers and rationales mirror the exam in length, structure, and content. These are unique questions, distinct from those in the author's companion study guide, that serve as a valuable diagnostic tool to improve exam success. With in-depth rationales and specific strategies for correctly answering each question, this resource helps social workers identify gaps in knowledge and errors in problem solving. Knowledge domains are grouped together so test-takers can identify the specific content area and competency being tested--a valuable asset for increasing understanding. In addition, the Knowledge, Skills, and Abilities statements (KSAs) are identified for each question, so test-takers can easily locate relevant source materials for further study. Tips for reading the questions, avoiding common pitfalls, and other valuable test-taking strategies, including an assessment of learning styles, add to this book's value as a highly useful resource and diagnostic tool. Taureans, ever wondered what the Sun-signs tell you about love and life? This unique anthology of poems for love and life relates directly to your Sun-sign, Taurus. If you were born between the 21st of April and the 21st of May, you will relate to many of the themes identified with your sign's characteristics and personality traits. The poems in this collection have been chosen because they reflect a Taurean attitude to life. They appeal to the interests 'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.
