The Peugeot 205 T16 is the legendary Group B turbocharged four-wheel-drive rally car produced by Peugeot between 1984 and 1986. 205 T16s won 16 World Championship rallies in the hands of Ari Vatanen, Timo Salonen, Juha Kankkunen and Bruno Saby, and won the manufacturers' and drivers' titles in 1985 and 1986 with Timon Salonen and Juha Kankkunen respectively, against strong opposition from Audi (Quattro), Lancia (Delta S4), Ford (RS200) and Austin-Rover (Metro 6R4). Peugeot later modified cars to compete in the famous Pikes Peak Hillclimb and Paris-Dakar rally, winning in 1987 and 1988. This extensively illustrated Manual looks at the design, evolution, anatomy and operation of the 205 T16, with input from many of the drivers and engineers involved.

In 1984 Peugeot launched the 205 1.6 GTi, which not only changed Peugeot's image forever, but also set a new benchmark for 'hot hatches' eight years after the legendary Golf GTI had raised the bar. Weak points, rust traps, and potential mechanical defects are all laid bare by an expert for the would be buyer. Clear 205-specific photos illustrate problem areas and good points too, as well as model variations. The author also embraces customized and mechanically modified cars. A unique points scoring system lets you evaluate your potential purchase like an expert and also to determine which price category it should fall into. With both mileage and particularly condition having a marked affect on potential prices, the author gives sound advice on what is worth restoring and what, however tempting, is likely to cost a new owner an unrecoverable fortune. Weak points, rust traps, and potential mechanical defects are laid out for the reader, with clear 205-specific guidelines offered on the practicalities of rectifying such problems.
