Real Justice: Jailed for Life for Being Black

Peter Kreeft believes that Baise Pascal is the first post-medieval apologist. No

writer in history, claims Kreeft, is a more effective Christian apologist and evangelist to today's uprooted, confused, secularized pagans (inside and outside the Church) than Pascal. He was a brilliant man--a great scientist who did major work in physics and mathematics, as well as an inventor--whom Kreeft thinks was three centuries ahead of his time. His apologetics found in his *Pensees* are ideal for the modern, sophisticated skeptic.

The Little Book of Restorative Justice

David Milgaard was a troubled kid, and he got into lots of trouble. Unfortunately, that made it easy for the Saskatoon police to brand him as a murderer. At seventeen, David Milgaard was arrested, jailed, and convicted for the rape and murder of a young nursing assistant, Gail Miller. He was sent to adult prison for life. Throughout his twenty-three years in prison, David maintained that he was innocent and refused to admit to the crime, even though it meant he was never granted parole. Finally, through the incredible determination of his mother and new lawyers who believed in him, David was released and proven not guilty. Astonishingly, in hindsight the real murderer was obvious from the start. This is the true story of how bad decisions, tunnel vision, poor representation, and outright lying and coercion by those within the justice system caused a tragic miscarriage of justice. It also shows that wrongs can be righted and amends made. [Fry Reading Level - 4.3]

Real Justice: Convicted for Being Mi'kmaq

The concept of global justice makes visible how we citizens of affluent countries are potentially implicated in the horrors so many must endure in the so-called less developed countries. Distinct conceptions of global justice differ in their specific criteria of global justice. However, they agree that the touchstone is how well our global institutional order is doing, compared to its feasible alternatives, in regard to the fundamental human interests that matter from a moral point of view. We are responsible for global regimes such as the global trading system and the rules governing military interventions. These institutional arrangements affect human beings worldwide, for instance by shaping the options and incentives of governments and corporations. Alternative paths of globalization would have differed in how much violence, oppression, and extreme poverty they engender. And global institutional reforms could greatly enhance human rights fulfillment in the future. The importance of this global justice approach reaches well beyond philosophy. It enables ordinary citizens to understand their options and responsibility for global institutional factors, and it challenges social scientists to address the causes of poverty and hunger that act across borders. The present volume addresses four main topics regarding global justice: The normative grounds for claims regarding the global institutional order, the substantive normative principles for a legitimate global order, the roles of legal human rights standards, and some institutional arrangements that may make the present world

order less unjust. All royalties from this book have been assigned to Oxfam.

Juvenile Justice

At fourteen, Steve Truscott was a typical teenager in rural Ontario in the fifties, mainly concerned about going fishing, playing football, and racing bikes with his friends. One summer evening, his twelve-year-old classmate, Lynne Harper, asked for a lift to the nearby highway on his bicycle and Steve agreed. Unfortunately, that made Steve the last person known to see Lynne alive. His world collapsed around him when he was arrested and then convicted of killing Lynne Harper. The penalty at the time was death by hanging. Although the sentence was changed to life in prison, Steve suffered for years behind bars for a murder he didn't commit. When his case gained national attention, the Supreme Court of Canada reviewed the evidence -- and confirmed his conviction. It took over forty years and a determination to prove his innocence for him to finally clear his name. He has since received an apology and compensation for his ordeal. In this book, young readers will discover how an innocent boy was presumed guilty by the justice system, and how in the end, that same justice system, prodded by Truscott and his lawyers, was able to acknowledge the terrible wrong done to him.

The Oxford Handbook of Juvenile Crime and Juvenile Justice

This is a provocative collection of timely reflections on the state of social democracy and its inextricable links to crime and justice. Authored by some of the world's leading thinkers from the UK, US, Canada and Australia, the volume provides an understanding of socially sustainable societies.

Plato's Ethics

Includes extra and special sessions.

The Theosophical Path

At twenty-four, Guy Paul Morin was considered a bit strange. He still lived at home, drove his parents' car, kept bees in the backyard, and grew flowers to encourage the hives. He played the saxophone and clarinet in three bands and loved the swing music of the 1940s. In the small Ontario town where he lived, this meant Guy Paul stood out. So when the nine-year-old girl next door went missing, the police were convinced that Morin was responsible for the little girl's murder. Over the course of eight years, police manipulated witnesses and tampered with evidence to target and convict an innocent man. It took ten years and the just-developed science of DNA testing to finally clear his name. This book tells his story, showing how the justice system not only failed to help an innocent young man, but

conspired to convict him. It also shows how a determined group of people dug up the evidence and forced the judicial system to give him the justice he deserved. [Fry Reading Level - 5.0]

Re-establishing Justice

Rough Justice recounts the experiences of victims of police and criminal justice failings through the stories of some who fought back, often with amazing commitment and courage. Their feelings encompass frustration, confusion, helplessness and anger. Their encounters affected their trust, certainty and confidence in British justice, sometimes for a lifetime. "An extraordinary book to remind us all that our 'social contract' comes with some frightening downsides" Professor David Wilson (From the Foreword). In 2006 Prime Minister David Cameron declared the police the 'last great unreformed public service' but Governments have dodged fundamental change. Police still investigate and often 'clear' themselves, and avoid prosecution more than Joe Public. A minority practice deception and dubious tactics to obscure what is happening. At a time when the Home Office is reviewing police integrity and discipline, the book also looks at the manipulation of crime statistics, argues that the Independent Police Complaints Commission is unfit for purpose and points to unfairness underpinning a crisis of legitimacy. As former Director of Public Prosecutions Keir Starmer commented, 'Britain's criminal justice system fails the vulnerable'. It lets down law-abiding

people too (including MPs) through free-style policing and a 'because we can' approach. It could it happen to you. Will anything ever change? When will politicians face up to the need for action? Roger Williams wrote *Rough Justice* as an ordinary citizen caught-up in a highly professional and impenetrable criminal process. He then discovered others with the same sense of inadequacy when faced with the might of the state. He hopes their stories and his suggestions might make a difference.

No True Justice

When a black teen was murdered in a Sydney, Cape Breton park late one night, his young companion, Donald Marshall Jr., became a prime suspect. Sydney police coached two teens to testify against Donald which helped convict him of a murder he did not commit. He spent 11 years in prison until he finally got a lucky break. Not only was he eventually acquitted of the crime, but a royal commission inquiry into his wrongful conviction found that a non-aboriginal youth would not have been convicted in the first place. Donald became a First Nations activist and later won a landmark court case in favour of native fishing rights. He was often referred to as the "reluctant hero" of the Mi'kmaq community.

Real Justice: Guilty of Being Weird

This collection of 6 documents covers a number of important issues related to restorative justice and provides victim-sensitive guidelines for restorative justice programs in probation or parole agencies, judicial agencies, religious groups, victim service organizations, community-based organizations and others. Contents: Family Group Conferencing; The History of Family Group Conferencing; Similarities and Differences Between Family Group Conferencing and Victim-Offender Mediation; Potential Dangers of Family Group Conferencing; Guidelines for Restorative Family Group Conferencing; Conclusion; Bibliography.

True Justice

Briefer than most texts on the topic, this book accessibly explores the interrelationships among theory, policy, and practice to provide a comprehensive understanding of both the historical foundations and the practical world of juvenile justice. The Sixth Edition, now published by SAGE, is updated throughout covering topics such as the history of juvenile justice, legal considerations in juvenile justice, theory and policy in juvenile justice, and current realities in the practice of juvenile justice. The book's unique blend of theory, policy, and practice, coupled with a straightforward writing style and comprehensive ancillary package makes it a must-have for students and practitioners alike.

Real Justice

Five firefighters took off running for cover behind the fire engine and the other gold/black trailer, a few closed their eyes as they ran blindly into the darkness with flames chasing behind them saying one prayer that seems to come to mind at a time like this. "Our Father Who"

Real Justice: Young, Innocent and In Prison

In 1991, nineteen-year-old Tammy Marquardt gave birth to a baby boy, Kenneth. Two years later he was dead. Tammy was convicted of his murder and sent to prison for life. Her conviction hinged largely on the evidence given by Dr. Charles Smith, the pediatric forensic pathologist at Toronto's famed Hospital for Sick Children. At the time, Dr. Smith was considered top in his field and his findings were never questioned. Tammy had two other sons taken away from her by the Children's Aid Society and her sons were adopted out to a new family. She spent fourteen years in prison for a murder she did not commit. Her fortunes turned when an inquiry into the cases of Dr. Charles Smith found that he was unqualified for his position and he had made serious errors in dozens of cases, which led to a series of wrongful convictions of innocent people, including Tammy. Tammy was released on bail in 2009 and eventually acquitted of all charges in 2011. This book

tells how an innocent mother's life was nearly destroyed by an unethical and incompetent doctor and how she fought for and finally received some justice.

The Morality of Punishment (Routledge Revivals)

This book attempts to answer the question how health care can be incorporated into a comprehensive theory of justice, while realising an acceptable balance between efficiency, justice and care. It seems to be that we can have any two but not all three. Essentially, the central question addressed by this book is the following: how best to square the proverbial welfare circle.

Family Group Conferencing

Brad Williams owns the legal system until he doesn't. In a courtroom, criminal defense attorney Brad Williams can make a jury sing. He can feel the jurors' emotions, understand their thoughts, and know their feelings. With incredible skill, Williams gets juries to trust the implausible, forgive the unforgivable, and return the most astonishing verdicts. The only barrier to his success is his morals until he defends homeless teenager Tyrone Vickers against a murder charge. Despite his belief in the young man's innocence, Williams cannot find a way to win the case. And the deeper he digs, the more dangerous the case becomes. But Brad Williams

has a need to win, and he will stop at nothing to make sure an innocent man walks free

A Moral Creed for All Christians

Crime, Justice and Social Democracy

Real World Justice

They forced her into witness protection, not to protect her, but to shut her up. After testifying in a high-profile case, Gemma Saint, a young intern at an influential media outlet, is forced into WITSEC by corrupt DOJ officials to silence her. When Gemma's testimony at a retrial threatens their elaborate conspiracy to control the upcoming presidential election. Gemma learns from her WITSEC Inspector her identity was compromised and someone in the DOJ has sent a team to kill her. After her Inspector is shot, Gemma sees only one chance to survive and resume her old life-expose the conspiracy, completely. She seeks help from Lex James, a young investigative journalist. Gemma offers him the biggest story of his career. But Lex was recently given custody of his deceased sister's four-year-old twins,

Josh and Caleb. Sparks fly when Lex and Gemma meet, and the boys see their mother in her. But can she endanger this fragile family? Should she run away, sacrificing her life and the course of her beloved country? Lex has difficult choices, too. But the highly gifted boys, Josh and Caleb, have their own opinion about what should happen. Set in the beautiful Central Oregon desert near Lake Billy Chinook and Crooked River Ranch, *No True Justice* is clean, high-action romantic suspense at its best. A story with thrills, some romance, and a little laughter.

True Justice and Peace

This exceptional book examines and explains Plato's answer to the normative question, "How ought we to live?" It discusses Plato's conception of the virtues; his views about the connection between the virtues and happiness; and the account of reason, desire, and motivation that underlies his arguments about the virtues. Plato's answer to the epistemological question, "How can we know how we ought to live?" is also discussed. His views on knowledge, belief, and inquiry, and his theory of Forms, are examined, insofar as they are relevant to his ethical view. Terence Irwin traces the development of Plato's moral philosophy, from the Socratic dialogues to its fullest exposition in the *Republic*. Plato's *Ethics* discusses Plato's reasons for abandoning or modifying some aspects of Socratic ethics, and for believing that he preserves Socrates' essential insights. A brief and selective discussion of the *Statesmen*, *Philebus*, and *Laws* is included. Replacing Irwin's

earlier Plato's Moral Theory (Oxford, 1977), this book gives a clearer and fuller account of the main questions and discusses some recent controversies in the interpretation of Plato's ethics. It does not presuppose any knowledge of Greek or any extensive knowledge of Plato.

Restorative Justice

Widely heralded for his bold and prophetic ethical thought, Maguire urges that Christianity's real relevance for the renewal of American public life lies not in the myopic morality of the Christian Right nor in any particular program of the Left but in the enduring relevance of Jesus and biblical Christianity. His new work builds on his earlier volume, *The Moral Core of Judaism and Christianity*, with the benefit of a new generation of social studies of the New Testament and a keen appreciation for the radically changed situation Christians confront today. Daniel C. Maguire is Professor of Ethics at Marquette University, a past president of the Society of Christian Ethics, and president of the Religious Consultation on Population, Reproductive Health and Ethics. A frequent lecturer and media commentator, Maguire is author of many influential works in ethics, such as *Death by Choice* (1974), *The Moral Choice* (1975), *The Moral Revolution* (1986), *Sacred Energies* (Fortress Press 2000), and *Sacred Choices* (Fortress Press 2001).

Acts of the Legislature of West Virginia

First published in 1929, this book explores the crucial, ethical question of the objects and the justification of punishment. Dr. A. C. Ewing considers both the retributive theory and the deterrent theory on the subject whilst remaining commendably unprejudiced. The book examines the views which emphasize the reformation of the offender and the education of the community as objects of punishment. It also deals with a theory of reward as a compliment to a theory of punishment. Dr. Ewing's treatment of the topics is philosophical yet he takes in to account the practical considerations that should determine the nature and the amount of the punishment to be inflicted in different types of cases. This book will be of great interest to students of philosophy, teachers and those who are interested in the concrete problems of punishment by the state. It is an original contribution to the study of a subject of great theoretical and practical importance.

Real Justice: Sentenced to Life at Seventeen

New York Times bestselling author Robert K. Tanenbaum has more than seven million copies of his finely crafted and morally complex novels in print. In True Justice, he reaches new heights with a compellingly authentic and penetrating story pulled right from today's most controversial headlines. For Butch Karp, chief

assistant district attorney for New York County, the nightmare begins when a shocking act of negligence results in homicide. Goaded by the media's sensational publicity, the public is screaming for blood, and Karp's boss, D.A. Jack Keegan, is listening. He has ordered the prosecution of a fifteen-year-old for murder, intent on making a very public example of the girl. A Hispanic from a poor neighborhood, she's an easy mark for big-city bureaucracy and bigotry. It is Butch Karp's unpleasant job to see that the prosecution gives the public what it wants: a quick and thorough administration of hard-line justice. Complicating matters further is Butch's wife, Marlene Ciampi, a private investigator who has decided to return to practicing law. Her first case takes her a few hundred miles south to a small Delaware town, where an equally unspeakable tragedy has taken place. Marlene, however, has the unenviable task of taking on a politically ambitious local prosecutor who is pressing to charge a suburban teenager with capital murder. With Butch and Marlene squaring off on opposite sides of an increasingly incendiary national debate, things couldn't get any more tense until a shocking turn of events puts their daughter, Lucy, at the center of a horrifying crime. Suddenly, everything they believe in is challenged, and they are drawn into a maelstrom of big-city politics and small-town values, where justice is sacrificed to the twin gods of public perception and expediency -- and Karp must struggle to salvage his self-respect, his career, and his life.

Efficiency, Justice and Care

Christianity for Modern Pagans

Gorilla Justice Caged War Veterans and the Mentally Ill in Solitary Confinement - Toxic and Harsh prison conditions - a Reality check Gorilla Justice is an un-edited raw fictitious parable about a returning Iraqi war veteran who is incarcerated for a crime that may have been forgiven as an accident but was prosecuted under the guise of tough on crime rhetoric by politicians and local prosecutors yearning recognition and power. This book follows the ex-soldiers trials and tribulations as he combats those elements detrimental to his own survival as he learns how to cope with hopelessness and despair that contemplates suicide for him and many others. During his incarceration period he is exposed to the harsh and toxic prison environment as it really exists today in Americas darkened prisons. Cyrus Grossman, a former Army Airborne Ranger, comes home from the war and is basically a good person who has already experienced the impacts of PTSD from the war and other personal tragedies but suffers trauma through his denial for treatment and counseling. Cyrus is a fictional person who experiences reality strewn with real life events and experiences of persons incarcerated under such horrific prison conditions throughout the United States. Each event written resembles or counterfeits happenings in various prisons operating under administrative conditions that are reflections of Abu Ghraib type of DNA but

seemingly ignored by the Department of Justice and those local state and federal officials in charge of protecting prisoners civil rights and offering humane treatment. The awareness to this phenomenon is brought to the reader through anecdotal and empirical evidence supported by many experts of solitary confinement and its psychological and physiological effects on the human mind. This book documents what Cyrus sees, hears, smells and touches the lunacy of his cellmates and fellow prisoners inside this man-made hell-hole.

Real Justice: A Police Mr. Big Sting Goes Wrong

The root cause of the unrest in the world today is due to a lack of justice found at every level of society. Only by recognizing its Creator, can mankind hope to establish true justice and usher in an era of individual, communal, and global peace. This brief treatise is a transcript of the concluding address by Hazrat Mirza Masoor Ahmad (aba), Fifth Successor the Promised Messiah (as) and Worldwide Head of the Ahmadiyya Muslim Community, at the Annual Convention of the Ahmadiyya Muslim Community UK held on August 23, 2015.

Just Mercy

This is a collection of contemporary poems in English by an Indian writer and poet

Shashikant Nishant Sharma. This is the first published book of the author, poet, urban planner, consultant, social activist. This book contains poems which expresses the experiences of the poet during his young age ranging from village life to urban life of Delhi. You will find poems with beautifully carved rhythm and rhyme. The expression of emotions is made in a lucid manner to capture your imagination. - See more at: <http://pothi.com/pothi/book/shashikant-nishant-sharma-poetry-real-life-experiences#sthash.gjrkJhak.dpuf>

#1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his

first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn't commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer's coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book "Every bit as moving as To Kill a Mockingbird, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields."—David Cole, The New York Review of Books "Searing, moving . . . Bryan Stevenson may, indeed, be America's Mandela."—Nicholas Kristof, The New York Times "You don't have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful."—Ted Conover, The New York Times Book Review "Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he's also a gifted writer and storyteller."—The Washington Post "As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty."—The

Financial Times “Brilliant.”—The Philadelphia Inquirer

Real Justice: Branded a Baby Killer

Over the last two decades, researchers have made significant discoveries about the causes and origins of delinquency. Specifically, we have learned a great deal about adolescent development and its relationship to decision-making, about multiple factors that contribute to delinquency, and about the processes and contexts associated with the course of delinquent careers. Over the same period, public officials have made sweeping jurisprudential, jurisdictional, and procedural changes in our juvenile justice systems. The Oxford Handbook of Juvenile Crime and Juvenile Justice presents a timely compilation of state-of-the-art critical reviews of knowledge about causes of delinquency and their significance for justice policy, and about developments in the juvenile justice system to prevent and control youth crime. The first half of the handbook focuses on juvenile crime and examines trends and patterns in delinquency and victimization, explores causes of delinquency-at the individual, micro-social, and macro-social levels, and from natural and social science perspectives-and their implications for structuring a youth justice system. The second half of the handbook concentrates on juvenile justice and examines a range of issues-including the historical origins and re-invention of the juvenile court; juvenile offenders' mental health status and considerations of trial competence and culpability; intake, diversion, detention, and

juvenile courts; and transfer/waiver strategies-and considers how the juvenile justice system itself influences delinquency. The Oxford Handbook of Juvenile Crime and Juvenile Justice provides a comprehensive overview of juvenile crime and juvenile justice administration by authors who are all leading scholars involved in cutting-edge research, and is an essential resource for scholars, students, and justice officials.

Real Justice: Branded a Baby Killer

Restorative Justice brings together key international writings that trace the development of restorative justice from its diverse beginnings to current global policies and practices.

Rough Justice

We live in a world where CEOs give themselves million dollar bonuses even as their companies go bankrupt and ordinary workers are laid off; where athletes make millions while teachers struggle to survive; a world, in short, where rewards are often unfairly meted out. In *The Ajax Dilemma*, Paul Woodruff examines one of today's most pressing moral issues: how to distribute rewards and public recognition without damaging the social fabric. How should we honor those whose

behavior and achievement is essential to our overall success? Is it fair or right to lavish rewards on the superstar at the expense of the hardworking rank-and-file? How do we distinguish an impartial fairness from what is truly just? Woodruff builds his answer to these questions around the ancient conflict between Ajax and Odysseus over the armor of the slain warrior Achilles. King Agamemnon arranges a speech contest to decide the issue. Ajax, the loyal workhorse, loses the contest, and the priceless armor, to Odysseus, the brilliantly deceptive strategist who will lead the Greeks to victory. Deeply insulted, Ajax goes on a rampage and commits suicide, and in his rage we see the resentment of every loyal worker who has been passed over in favor of those who are more gifted, or whose skills are more highly valued. How should we deal with the "Ajax dilemma"? Woodruff argues that while we can never create a perfect system for distributing just rewards, we can recognize the essential role that wisdom, compassion, moderation, and respect must play if we are to restore the basic sense of justice on which all communities depend. This short, thoughtful book, written with Woodruff's characteristic elegance, investigates some of the most bitterly divisive issues in American today.

The Ajax Dilemma

First published in 1990, this unique explanation of the rise of neoclassical economics views social change as an engine promoting change in theory. It attempts to develop a theory of the origins, consolidation and rise to dominance of

the neoclassical school of thought. In so doing, it addresses the contest between the labour and utility theories of value; both are placed in historical context, and reasons are offered for the relative success of each in particular historical periods. It is argued that the eventual dominance of neoclassicism, a theory based on the social changes then taking place, resulted not from its scientific superiority but from its non-social perspective which ignores the social order upon which it depends.

The Theory of Justice

In this very significant work, translated from the Italian, Bovati examines in careful detail the practice of justice in ancient Israel, first the bilateral controversy (the rib), and then the legal judgement properly speaking. "Re-establishing Justice" is destined to become the standard reference work in the field. The contents deal with 1. The juridical dispute in general. 2 The accusation, 3 The response of the accused, 4 The reconciliation , 5. Judgement in court, 6.The acts and procedures preceding the debate , 7. The debate, 8. The sentence and execution.

Gorilla Justice

Here the noted German philosopher disputes the historical and natural schools of

jurisprudence and advocates a philosophical approach to law. In addition to Stammler's text, the volume includes the translator's introduction which outlines the basis of Stammler's theory, an appendix which contains an essay on Stammler's critical system by Francois Geny and "Stammler and his Critics" by John C.H. Wu.

Restorative Justice on the College Campus

Brenda Waudby, a rehabilitated cocaine addict, was a single mother of two little girls in 1997. One night she left them with a 14-year-old babysitter and when she came home her 21-month-old daughter was dead. Police immediately targeted Brenda as the suspect. A government pathologist, Dr. Charles Smith, examined the body and concluded that Brenda was responsible for the death. Facing a jury on a charge of murder and the permanent loss of her other children, Brenda was cornered -- and pled guilty to child abuse, instead of murder. Almost nine years later, the babysitter confessed to the crime. Ultimately Brenda was acquitted and given an apology and financial compensation. This book tells the story of a young woman burdened with many disadvantages who had the strength of character to face down the justice system and to work to finally bring the truth to light.

True Justice

At twenty-five, Rob Baltovich lost the love of his life, Elizabeth Bain. That was bad enough. Then he was arrested, jailed, sent to trial for murder, convicted, and sent to prison -- for life. Throughout his years in prison, Rob maintained that he was innocent, refusing to admit to a crime he didn't commit. The result was he was never granted parole. Finally, his luck began to turn when he hired new lawyers who believed in him. Not only did they get Rob acquitted, they also made a strong case that the real murderer was the infamous serial killer Paul Bernardo. Author Jeff Mitchell tells much of the story in Baltovich's own words. In this book, young readers will discover how this tragic miscarriage of justice happened -- and how the legal system can right its own wrongs when lawyers and judges are willing to re-examine a case with fresh eyes. [Fry reading level - 5.0]

The Origin of the Fittest

Rubin Carter was in and out of reformatories and prisons from the age of twelve. At twenty-four, he became a winning professional boxer and was turning his life around. But Carter was also very vocal about racism in the local New Jersey police force. In 1966, local policemen arrested Carter and a friend for a triple murder. The two were convicted and sent to jail for life. Carter spent nearly twenty years in jail, proclaiming his innocence. A teen from Brooklyn, Lesra Martin, heard Carter's story and believed he was innocent. He and a small group of Canadian lawyers contacted Carter and began working with Carter's lawyers in New York to get the

boxer exonerated. In 1985, a judge released Carter, ruling that Carter's conviction had been based not on evidence, but on racism. Carter moved to Canada in 1985, where until his death in 2014 he worked helping others prove that they had been wrongfully convicted.

Justice, Humanity, and Social Toleration

Lessons from the groundbreaking grassroots campaign that helped launch a new political revolution *Rules for Revolutionaries* is a bold challenge to the political establishment and the “rules” that govern campaign strategy. It tells the story of a breakthrough experiment conducted on the fringes of the Bernie Sanders presidential campaign: A technology-driven team empowered volunteers to build and manage the infrastructure to make seventy-five million calls, launch eight million text messages, and hold more than one-hundred thousand public meetings—in an effort to put Bernie Sanders’s insurgent campaign over the top. Bond and Exley, digital iconoclasts who have been reshaping the way politics is practiced in America for two decades, have identified twenty-two rules of “Big Organizing” that can be used to drive social change movements of any kind. And they tell the inside story of one of the most amazing grassroots political campaigns ever run. Fast-paced, provocative, and profound, *Rules for Revolutionaries* stands as a liberating challenge to the low expectations and small thinking that dominates too many advocacy, non-profit, and campaigning organizations—and points the

way forward to a future where political revolution is truly possible.

Real Justice

On the night of June 23, 1990, teenage friends Kyle Unger and John Beckett made a last-minute decision to attend a music festival near Roseisle, Manitoba. They were loners, not the popular kids at school. But on this night they seemed to finally fit in. They had fun, played games, drank, and hung around bonfires with other people. The next morning, a sixteen-year-old girl was dead. By the next week, Kyle was charged with her murder. Due to insufficient evidence he was let go, but the Mounties were convinced he was the killer. They laid a trap, called the Mr. Big operation, for Kyle. With offers of money, friends, and a new criminal lifestyle, the RCMP got Kyle to confess to the murder. But the confession was false -- he had not been the killer. He was convicted and sent to prison. For the next twenty years Kyle fought for his freedom. He was finally acquitted in 2009. This book tells the story of an impressionable but innocent teenager who was wrongfully convicted based on the controversial Mr. Big police tactic. [Fry reading level - 4.9]

Poetry on Real Life Experiences

Howard Zehr is the father of Restorative Justice and is known worldwide for his

pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

Real Justice: Fourteen and Sentenced to Death

No other publication provides such an up-to-date overview of college student misbehavior. This book will be an excellent resource to student affairs professionals, especially campus judicial officers and ombudspersons, and may be
