Why Smart Men Marry Smart Women

Just when the clamor over "traditional" marriage couldn't get any louder, along comes this groundbreaking book to ask, "What tradition?" In *Marriage, a History*, historian and marriage expert Stephanie Coontz takes readers from the marital intrigues of ancient Babylon to the torments of Victorian lovers to demonstrate how recent the idea of marrying for love is—and how absurd it would have seemed to most of our ancestors. It was when marriage moved into the emotional sphere in the nineteenth century, she argues, that it suffered as an institution just as it began to thrive as a personal relationship. This enlightening and hugely entertaining book brings intelligence, perspective, and wit to today's marital debate.

Sometimes Amazing Things Happen

For years, it's been "common knowledge" that once a woman hits thirty, her chances of finding a husband diminish to the point of despair. That men are intimidated by a woman's career success, preferring docile helpmates to ambitious achievers. That women are biologically driven to seek a strong provider. That the higher a woman's IQ, the less likely she is to marry, let alone have babies. Leaving single, successful women to ask themselves: Are men intimidated by smart women? In *Why Smart Men Marry Smart Women*, Christine B. Whelan shatters the myth that high-achieving women are at a disadvantage in the marriage market. There's good news for the millions of American SWANS (Strong Women Achievers, No Spouse): that today's smart, successful women marry at the same rates as all other women -- and that more income and education may in fact increase a woman's chances of marriage. What's more, as Dr. Whelan shows through newly released U.S. Census data, a large-scale Harris Interactive survey commissioned especially for this book, plus extended interviews conducted in cities nationwide, this profound demographic shift shows every sign of progressing. That means that the "success penalty" that has endured for generations is, as soon as 2010, destined for the history books. Accomplished daughters, sisters, and friends (not to mention their mothers) can finally stop worrying that the twin pinnacles of personal and professional happiness are inherently unattainable. In fact, smart men do marry SWANS. Ninety percent of high-achieving men surveyed want a woman who is as intelligent or more intelligent than they are. And two-thirds of men said they believed smart women make better mothers. Pairing cutting-edge research with sound advice, Dr. Whelan brings to mind what smart women everywhere have long known in their hearts: that the goal is not just to get married, but to have a good marriage, and to lead a fulfilled life.

Marriage, a History

They were the most famous women in China. As the country battled through a hundred years of wars, revolutions and seismic transformations, the three Soong sisters from Shanghai were at the center of power, and each of them left an indelible mark on history. Red Sister, Ching-ling, married the 'Father of China', Sun Yat-sen, and rose to be Mao's vice-chair. Little Sister, May-ling, became Madame Chiang Kai-shek, first lady of pre-Communist Nationalist China and a major political figure in her own right. Big Sister, Ei-ling, became Chiang's unofficial main adviser - and made herself one of China's richest women. Big Sister, Little Sister, Red Sister is a gripping story of love, war, intrigue, bravery, glamour and betrayal, which takes us on a sweeping journey from Canton to Hawaii to New York, from exiles' quarters in Japan and Berlin to secret meeting rooms in Moscow, and from the compounds of the Communist elite in Beijing to the corridors of power in democratic Taiwan. In a group biography that is by turns intimate and epic, Jung Chang reveals the lives of three extraordinary women who helped shape twentieth-century China.

How to Marry the Rich

NEW YORK TIMES BESTSELLER - NATIONAL BOOK AWARD FINALIST "Disturbing and riveting! It will sear your soul." —Dave Eggers, *New York Times* Book Review SHELF AWARENESS'S BEST BOOK OF 2017 Named a best book of the year by *Wall Street Journal*, *The Boston Globe*, *San Francisco Chronicle*, *GQ*, *Time*, *Newsday*, *Entertainment Weekly*, *Time Magazine*, NPR's Maureen Corrigan, NPR's "On Point," *Vogue*, *Smithsonian*, *Cosmopolitan*, *Seattle Times*, *Bloomberg*, *Lit Hub's "Ultimate Best Books,"* *Library Journal*, *Paste*, *Kirkus*, *Slate.com* and *Book Browse* From *New Yorker* staff writer David Grann, #1 *New York Times* best-selling author of *The Lost City of Z*, a twisting, haunting true-life murder mystery about one of the most monstrous crimes in American history In the 1920s, the richest people per capita in the world were members of the Osage Indian nation in Oklahoma. After oil was discovered beneath their land, they rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. Her relatives were shot and poisoned. And it was just the beginning, as more and more members of the tribe began to die under mysterious circumstances. In this last remnant of the Wild West—where oilmen like J. P. Getty made their fortunes and where desperadoes like Al Spencer, the "Phantom Terror,"

roamed—many of those who dared to investigate the killings were themselves murdered. As the death toll climbed to more than twenty-four, the FBI took up the case. It was one of the organization's first major homicide investigations and the bureau badly bungled the case. In desperation, the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to unravel the mystery. White put together an undercover team, including one of the only American Indian agents in the bureau. The agents infiltrated the region, struggling to adopt the latest techniques of detection. Together with the Osage they began to expose one of the most chilling conspiracies in American history. In *Killers of the Flower Moon*, David Grann revisits a shocking series of crimes in which dozens of people were murdered in cold blood. Based on years of research and startling new evidence, the book is a masterpiece of narrative nonfiction, as each step in the investigation reveals a series of sinister secrets and reversals. But more than that, it is a searing indictment of the callousness and prejudice toward American Indians that allowed the murderers to operate with impunity for so long. *Killers of the Flower Moon* is utterly compelling, but also emotionally devastating.

Project: Happily Ever After

It's not that he's just not that into you—it's that there aren't enough of him. And the numbers prove it. Using a combination of demographics, statistics, game theory, and number-crunching, *Date-onomics* tells what every single, college-educated, heterosexual, looking-for-a-partner woman needs to know: The "man deficit" is real. It's a fascinating, if sobering read, with two critical takeaways: One, it's not you. Two, knowledge is power, so here's what to do about it. The shortage of college-educated men is not just a big-city phenomenon frustrating women in New York and L.A. Among young college grads, there are four eligible women for every three men nationwide. This unequal ratio explains not only why it's so hard to find a date, but a host of social issues, from the college hookup culture to the reason Salt Lake City is becoming the breast implant capital of America. Then there's the math that says that a woman's good looks can keep men from approaching her—particularly if they feel the odds aren't in their favor. Fortunately, there are also solutions: what college to attend (any with strong sciences or math), where to hang out (in New York, try a fireman's bar), where to live (Colorado, Seattle, "Man" Jose), and why never to shy away from giving an ultimatum.

Women of the Upper Class

This is the incredibly interesting story which describes the unbelievable mistakes we make in life, how we cope with them into the future, and what are the lessons learned from this thing called life! The story is mixed with a sense of sarcastic humor but always stressing the benefits of humor. It is also a story of hope and encouragement as the author fights a battle that his dad, his hero, lost - to Parkinson's disease. Here's the Forward: What is life really all about? Why are we here? Is there any purpose to our existence? These are questions that have been asked over and over again for centuries and centuries. Well I believe I have found the answer - now that I am totally broke and deteriorating thanks to Parkinson's disease! Gee - thanks guys! The sarcastic sense of humor in me concludes the following about our existence here on planet earth - "LIFE IS A BITCH, THAN YOU MARRY ONE (TWO IN MY CASE) AND THEN YOU DIE" Guess I'm just waiting for the arrival of the Grim Reaper himself!! However, the real me has slowly discovered that we are all on a journey here on earth. The journey is intended not to be an easy one. It is intended for us to learn from the decisions we make using our free will. There is much pain, suffering, disappointment, hurt, anger, and sorrow. And, hopefully, forgiveness. There is no hell I believe. You are living it everyday - the good and the bad! A lot more bad than good! What is it all for? It is for all of us to learn and to grow as human creatures and to eventually flourish in a place where we will discover peace, love, harmony - Where? In the hereafter - In that warmth of the Light we hear so much about from people returning from the dead. In my mind - that Light is better known as God! That is our eventual reward for everything that is tossed our way here on earth. If we learn our lessons well here than we shall be that much closer to the warmth of the Light in the hereafter. If we learn little and cause much pain and anguish to others than we shall be the farthest from the Light but always given opportunities to proceed forward. We do this by realizing our indiscretions and asking for forgiveness for our actions on earth when arriving in the hereafter and then performing duties and working toward the Light. Boy - do I hope I am right about this! Believe it or not, I actually look forward to being greeted someday by my loved ones and all the pets in the hereafter. (I got along better with my pets than with some of my crazy relatives and friends!) So - in the chapters that follow I will allow you to make your own judgments. As you read on and we share the good times and the pitiful times, always with a sense of humor I hope, I will honestly try to elaborate on the Lessons Learned from this journey that has been all too short. Perhaps through me you can make adjustments and, just perhaps, not do the same stupid things that I have done so many times in the last half century.

Strong Fathers, Strong Daughters

This irreverent manifesto sparked both conversation and controversy when it made its debut as a hardcover in 2009. From essays in The Wall Street Journal to debates in the blogosphere, women weighed in on the book's provocative message, which ultimately challenges the ideals and assumptions we've blindly accepted about love and marriage. Smart Girls Marry Money is a hard-hitting indictment on society (peppered with plenty of wry observations) that empowers women with a new way to take control of their economic and romantic lives. Now in a paperback edition, there will be more "Smart Girls" who will join in on the heated debate on how we can make healthier (and wealthier!) marriages.

Committed

Why does society applaud a girl who falls for a guy's "big blue eyes" yet denounces one who chooses a man with a "big green bankroll"? After all, isn't earning power more a reflection of a man's values and character? Smart Girls Marry Money challenges the ideals and assumptions women have blindly accepted about love and marriage -- and shows how they've done so at their own economic peril. In this brazen manifesto, authors Elizabeth Ford and Daniela Drake use cold hard facts, real science, and true stories to present a compelling case for why mercenary marriages make the most sense for future happiness. Smart Girls taps into a growing, collective suspicion that the post-feminist world isn't all it's cracked up to be. Female "empowerment" has women working hard to look sexier than ever, while carrying more than their fair share financially. Yet sadly, statistics prove that: not only do women continue to earn far less than their male counterparts, they also suffer far more economically when marriages fail. Ford and Drake think it's high time that women get their heads out of the clouds and start caring about their own security -- the kind that can be measured in dollars and common sense. With an irreverent, straight-talk tone, the authors serve up a sound case and intriguing strategy for how women can truly "have it all." Sure to spark conversation and controversy, Smart Girls Marry Money will ultimately empower women with a new way to take control of both their economic and romantic lives.

Dollars and Sex

At the end of her bestselling memoir Eat, Pray, Love, Elizabeth Gilbert fell in love with Felipe - a Brazilian-born man of Australian citizenship who'd been living in Indonesia when they met. Resettling in America, the couple swore eternal fidelity to each other, but also swore to never, ever, under any circumstances get legally married. (Both survivors of difficult

divorces. Enough said.) But providence intervened one day in the form of the U.S. government, who - after unexpectedly detaining Felipe at an American border crossing - gave the couple a choice: they could either get married, or Felipe would never be allowed to enter the country again. Having been effectively sentenced to wed, Gilbert tackled her fears of marriage by delving completely into this topic, trying with all her might to discover (through historical research, interviews and much personal reflection) what this stubbornly enduring old institution actually is. The result is *Committed* - a witty and intelligent contemplation of marriage that debunks myths, unthreads fears and suggests that sometimes even the most romantic of souls must trade in her amorous fantasies for the humbling responsibility of adulthood. Gilbert's memoir - destined to become a cherished handbook for any thinking person hovering on the verge of marriage - is ultimately a clear-eyed celebration of love, with all the complexity and consequence that real love, in the real world, actually entails.

Class Matters

The author--tapped by Reese Witherspoon's *Hello Sunshine* as the expert on this topic for a new generation of women--offers a revolutionary, real-world solution to the problem of unpaid, invisible work that women have shouldered for too long. too long.

Equal parts funny, poignant, and most importantly, useful, Bowman's story will give other miserably-married folks courage and hope. And in addition to telling her own story, she packs straightforward prescriptive guidance, including a "10-Step Marital Improvement Guide." Readers will laugh. They'll cry. And they can start on the road toward their own happy ending!

Marry Him

An eye-opening, funny, painful, and always truthful in-depth examination of modern relationships and a wake-up call for single women about getting real about Mr. Right. You have a fulfilling job, great friends, and the perfect apartment. So what if you haven't found "The One" just yet. He'll come along someday, right? But what if he doesn't? Or what if Mr. Right had been, well, Mr. Right in Front of You—but you passed him by? Nearing forty and still single, journalist Lori Gottlieb started to

wonder: What makes for lasting romantic fulfillment, and are we looking for those qualities when we're dating? Are we too picky about trivial things that don't matter, and not picky enough about the often overlooked things that do? In *Marry Him*, Gottlieb explores an all-too-common dilemma—how to reconcile the desire for a happy marriage with a list of must-haves and deal-breakers so long and complicated that many great guys get misguidedly eliminated. On a quest to find the answer, Gottlieb sets out on her own journey in search of love, discovering wisdom and surprising insights from sociologists and neurobiologists, marital researchers and behavioral economists—as well as single and married men and women of all generations.

Marry Smart

From the Executive Director of Mental Health for Correctional Services in New York City, comes a revelatory and deeply compassionate memoir that takes readers inside Bellevue, and brings to life the world—the system, the staff, and the haunting cases—that shaped one young psychiatrist as she learned how to doctor and how to love. Elizabeth Ford went through medical school unsure of where she belonged. It wasn't until she did her psychiatry rotation that she found her calling—to care for one of the most vulnerable populations of mentally ill people, the inmates of New York's jails, including Rikers Island, who are so sick that they are sent to the Bellevue Hospital Prison Ward for care. These men were broken, unloved, without resources or support, and very ill. They could be violent, unpredictable, but they could also be funny and tender and needy. Mostly, they were human and they awakened in Ford a boundless compassion. Her patients made her a great doctor and a better person and, as she treated these men, she learned about doctoring, about nurturing, about parenting, and about love. While Ford was a psychiatrist at Bellevue she becomes a wife and a mother. In her book she shares her struggles to balance her life and her work, to care for her children and her patients, and to maintain the empathy that is essential to her practice—all in the face of a jaded institution, an exhausting workload, and the deeply emotionally taxing nature of her work. Ford brings humor, grace, and humanity to the lives of the patients in her care and in beautifully rendered prose illuminates the inner workings (and failings) of our mental health system, our justice system, and the prison system.

Smart Girls Marry Money

Albert Einstein's first wife, Mileva Einstein-Maric, was forgotten by history for decades, But when a trove of correspondence between them beginning in their student days at the Zurich Polytechnic was discovered in 1986, her story began to be told.

Mileva was one of the few women of her era to pursue higher education in science. Her ambitions for a science career, however, suffered a series of setbacks, including an out-of-wedlock pregnancy by Einstein. Some of the tellers of the "Mileva Story" made startling claims: that she was a brilliant mathematician who surpassed her husband, and that she made uncredited contributions to his most celebrated papers in 1905, including his paper on special relativity. The authors of Einstein's Wife look at the actual evidence, and a chapter by Ruth Lewin Sime offers important historical context. The story they tell is that of a brave and determined young woman who struggled against a variety of obstacles at a time when science was not very welcoming to women. Book jacket.

Marry Smart

How does an engaged or newly married couple work as a team when dealing with money?

The Joy Luck Club

In this analysis of social history, examine the complex lineage of America's oppression of Black companionship. According to the 2010 US census, more than seventy percent of Black women in America are unmarried. Black Women, Black Love reveals how four centuries of laws, policies, and customs have created that crisis. Dianne Stewart begins in the colonial era, when slave owners denied Blacks the right to marry, divided families, and, in many cases, raped enslaved women and girls. Later, during Reconstruction and the ensuing decades, violence split up couples again as millions embarked on the Great Migration north, where the welfare system mandated that women remain single in order to receive government support. And no institution has forbidden Black love as effectively as the prison-industrial complex, which removes Black men en masse from the pool of marriageable partners. Prodigiously researched and deeply felt, Black Women, Black Love reveals how white supremacy has systematically broken the heart of Black America, and it proposes strategies for dismantling the structural forces that have plagued Black love and marriage for centuries.

Yet when it comes to relationships, they can't figure out what makes men tick. Why? According to Steve it's because they're asking other women for advice when no one but another man can tell them how to find and keep a man. In *Act Like a Lady, Think Like a Man*, Steve lets women inside the mindset of a man and sheds light on concepts and questions such as: The Ninety Day Rule: Ford requires it of its employees. Should you require it of your man? The five questions every woman should ask a man to determine how serious he is. And much more . . . Sometimes funny, sometimes direct, but always truthful, *Act Like a Lady, Think Like a Man* is a book you must read if you want to understand how men think when it comes to relationships.

The New I Do

If half of all cars bought in America each year broke down, there would be a national uproar. But when people suggest that maybe every single marriage doesn't look like the next and isn't meant to last until death, there's nothing but a rash of proposed laws trying to force it to do just that. In *The New I Do*, therapist Susan Pease Gadoua and journalist Vicki Larson take a groundbreaking look at the modern shape of marriage to help readers open their minds to marrying more consciously and creatively. Offering actual models of less-traditional marriages, including everything from a parenting marriage (intended for the sake of raising and nurturing children) to a comfort or safety marriage (where people marry for

financial security or companionship), the book covers unique options for couples interested in forging their own paths. With advice and quizzes to help readers decide what works for them, *The New I Do* acts as a guide to thinking outside the marital box and the framework for a new debate on marriage in the 21st century.

A research-based guide to navigating the newest dating phenomenon—"the love gap"—and a trailblazing action plan to help smart, confident, career-driven women find (and keep) their match. For a rising generation young women, the sky is the limit. Women can be anything and have everything. They are outpacing their male peers in higher education and earning the corner office at work. Smart, driven, assertive women are succeeding at just about everything they do—except romance. Why are so many men afraid to date smart women? Modern men claim to want smarts, success, and independence in romantic partners. Or so says the data collected by scientists and dating websites. If that's the case, why are so many independent, successful women winning in life, but losing in love? Journalist Jenna Birch has finally named the perplexing reason: "the love gap"—or that confusing rift between who men say they want to date and who they actually commit to. Backed by extensive data, research, in-depth interviews with experts and real-life relationship stories, *THE LOVE GAP* is the first book to explore the most talked-about dating trend today. The guide also establishes a new framework for navigating modern relationships, and the tricky new gender dynamics that impact them. Women can, and should, have it all without settling.

Smart Girls Marry Money

The acclaimed New York Times series on social class in America—and its implications for the way we live our lives. We Americans have long thought of ourselves as unburdened by class distinctions. We have no hereditary aristocracy or landed gentry, and even the poorest among us feel that they can become rich through education, hard work, or sheer gumption. And yet social class remains a powerful force in American life. In *Class Matters*, a team of New York Times reporters explores the ways in which class—defined as a combination of income, education, wealth, and occupation—influences destiny in a society that likes to think of itself as a land of opportunity. We meet individuals in Kentucky and Chicago who have used education to lift themselves out of poverty and others in Virginia and Washington whose lack of education holds

them back. We meet an upper-middle-class family in Georgia who moves to a different town every few years, and the newly rich in Nantucket whose mega-mansions have driven out the longstanding residents. And we see how class disparities manifest themselves at the doctor's office and at the marriage altar. For anyone concerned about the future of the American dream, *Class Matters* is truly essential reading. "Class Matters is a beautifully reported, deeply disturbing, portrait of a society bent out of shape by harsh inequalities. Read it and see how you fit into the problem or—better yet—the solution!"—Barbara Ehrenreich, author of *Nickel and Dimed* and *Bait and Switch*

Killers of the Flower Moon

"The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of *Crazy Rich Asians* Amy Tan's beloved, New York Times bestselling tale of mothers and daughters *Four mothers, four daughters, four families* whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.
