IT4IT™ Foundation - Study Guide

Classroom management is traditionally a matter of encouraging good behavior and discouraging bad by doling out rewards and punishments. But studies show that when educators empower students to address and correct misbehavior among themselves, positive results are longer lasting and more wide reaching. In *Better Than Carrots or Sticks*, longtime educators and best-selling authors Dominique Smith,

Douglas Fisher, and Nancy Frey provide a practical blueprint for creating a cooperative and respectful classroom climate in which students and teachers work through behavioral issues together. After a comprehensive overview of the roots of the restorative practices movement in schools, the authors explain how to

- * Establish procedures and expectations for student behavior that encourage the development of positive interpersonal skills;
- * Develop a nonconfrontational rapport with even the most challenging students; and
- * Implement conflict resolution strategies that prioritize relationship building and mutual understanding over finger-pointing and retribution.

Rewards and punishments may help to maintain order in the short term, but they're at best superficially effective and at worst counterproductive. This book will prepare teachers at all levels to ensure that their classrooms are welcoming, enriching, and constructive environments built on collective respect and focused on student achievement.

Foundations of Honor

For years, Danny Silk has been teaching, writing, speaking, and coaching on honor and how to express it in our families, churches, organizations, and communities. And for years, he has received the same feedback and questions around this powerful, challenging, and frequently misunderstood and misapplied concept, such as: · "You say that people of honor must be powerful, but to a lot of people, 'powerful' means dominating and selfish. What does it

mean to be powerful?" · "If respecting our freedom and the freedom of others is crucial to practicing honor, what do we do when people cannot handle their freedom?" · "We tried to honorably confront someone, and the person refused to 'clean up his mess.' What do we do now?" · "I really don't like confrontation. Doesn't honor mean we should get along without conflict?" · "If we're all trying to honor one another equally, does that mean there shouldn't be any leaders?" · "Why does 'honor' always seem to turn into 'entitlement'?" The Foundations of Honor Study Guide addresses these questions and more through a comprehensive study of the core values, practices, and cultural effects of honor. Clear biblical teaching and illustrations, along with provoking questions and targeted action points, equip and train readers to examine their own foundations and build a solid foundation of honor in their lives, homes, businesses, churches, and communities. The Foundations of Honor Study Guide is designed to work with the Foundations of Honor Teaching Series as a 10-session course suitable for both individuals and groups.
