THOSE MARVELOUS LITTLE TOYOTA MOTORHOMES is all about Toyota motorhomes in general and a 1977 Toyota Pont-X motorhome named Little House in particular. Between the mid-1970 and 1994, over thirty motorhome manufactures mounted motorhomes on Toyota cabs and chassis with many different models available from about 16 1/2- to 23-foot in length. Many of these Toyota motorhomes are still on the road today, and used ones are still available. This book is a complete how-to guide for joining in on the Toyota motorhome fun. It gives a brief history of these marvelous little motorhomes and describes what's available and how to find and buy your own Toyota motorhome. The author Jack Wiley has owned a 1977 Toyota Pont-X motorhome that he and his wife named Little House for 16 years. He sums up this experience as follows: "Little House has given me a lot of Free Being traveling for relatively little money. This is traveling that I would not otherwise have been able to afford. During this traveling, I have been able to see things and do things that I would not otherwise have experienced. A Toyota motorhome made all this possible."

The Land Crusier Legend

When the war ended on August 15, 1945, I was a naval engineering cadet at the Kure Navy Yard near Hiroshima, Japan. A week later, I was demobilized and returned to my home in Tokyo, fortunate not to find it ravaged by firebombing. At the beginning of September, a large contingent of the American occupation forces led by General Douglas MacArthur moved its base from Yokohama to Tokyo. Near my home I watched a procession of American military motor vehicles snaking along Highway 1. This truly awe-inspiring cavalcade included jeeps, two-and-a-half-ton trucks, and enormous trailers mounted

with tanks and artillery. At the time, I was a 21-year-old student in the Machinery Section of Engineering at the Tokyo Imperial University. Watching that magnificent parade of military vehicles, I was more than impressed by the gap in industrial strength between Japan and the U. S. That realization led me to devote my whole life to the development of the Japanese auto industry. I wrote a small article concerning this incident in Nikkei Sangyo Shimbun (one of the leading business newspapers in Japan) on May 2, 1983. The English translation of this story was carried in the July 3, 1983 edition of the Topeka Capital-Journal and the September 13, 1983 issue of the Asian Wall Street Journal. The Topeka Capital-Journal headline read, "MacArthur's Jeeps Were the Toyota Catalyst."
