What Spins the Wheel

An urgent examination into the revived Klan of the 1920s becomes “required reading” for our time (New York Times Book Review). Extraordinary national acclaim accompanied the publication of award-winning historian Linda Gordon’s disturbing and markedly timely history of the reassembled Ku Klux Klan of the 1920s. Dramatically challenging our preconceptions of the hooded Klansmen responsible for establishing a Jim Crow racial hierarchy in the 1870s South, this “second Klan” spread in states principally above the Mason-Dixon line by courting xenophobic fears surrounding the flood of immigrant “hordes” landing on American shores. “Part cautionary tale, part expose” (Washington Post), *The Second Coming of the KKK* “illuminates the surprising scope of the movement” (The New Yorker); the Klan attracted four-to-six-million members through secret

rituals, manufactured news stories, and mass “Klonvocations” prior to its collapse in 1926—but not before its potent ideology of intolerance became part and parcel of the American tradition. A “must-read” (Salon) for anyone looking to understand the current moment, *The Second Coming of the KKK* offers “chilling comparisons to the present day” (New York Review of Books).

The Wheel of Fortune

When entrepreneur Len Forkas learned that his nine-year-old son had leukemia, his own life changed forever. In 2003, Len founded Hopecam, a nonprofit that uses technology to connect young cancer patients with their friends at school. Ten years later, Len's fight against childhood cancer rose to a new level. He qualified as a solo competitor in Race Across America, a 3,000-mile bicycle race that traverses

scorching deserts and 11,000-foot mountain elevations. As Len fought to finish the race in just 12 days, an all-volunteer crew supported him around the clock. *What Spins the Wheel* is a true story about fatherhood and fortitude, business grit and growth ? and the power of combining the right mission with the right team to help others.

Reinventing the Wheel

"The Wheel Spins" is the novel about young and bright Iris Carr, who is on her way back to England after spending a holiday somewhere in the Balkans. After she is left alone by her friends, Iris catches the train for Trieste and finds company in Miss Froy, chatty elderly English woman. When she wakes up from a short nap, she discovers that her elderly travelling companion seems to have disappeared from the train. After her fellow passengers deny ever having seen the elderly lady, the young woman is on the verge of her nerves. She is helped by a young English traveler, and the two proceed to search the train for clues to the old woman's disappearance. Ethel Lina White (1876-1944) was a British crime writer, best known for her novel *The Wheel Spins*, on which the Alfred Hitchcock film, *The Lady Vanishes*, was based.

When she arrives, however, she finds Amy's funeral guests just leaving. The residents of Broken Wheel are happy to look after their bewildered visitor—there's not much else to do in a dying small town that's almost beyond repair. You certainly wouldn't open a bookstore. And definitely not with the tourist in charge. You'd need a vacant storefront (Main Street is full of them), books (Amy's house is full of them), and customers. The bookstore might be a little quirky. Then again, so is Sara. But Broken Wheel's own story might be more eccentric and surprising than she thought.

How can teachers make sure that all students gain the reading skills they need to be successful in school and in life? In this book, Karen Tankersley describes the six foundational "threads" that students need to study in order to become effective readers: phonemic awareness, phonics and decoding, vocabulary, fluency, comprehension, and higher-order processing. For each area, the author explains how students acquire the reading skills they need and offers a series of skill-building strategies and activities that teachers can use in the classroom. Although reading is perhaps most intensely taught in the kindergarten and 1st-grade classrooms, Tankersley emphasizes that helping students become lifelong readers is a task for all teachers, including content-area teachers in middle and high schools. The Threads of Reading addresses key questions about literacy, such as * What makes a difference in reading achievement? * How much reading time is enough? * How can teachers use writing to build reading skills? * How can teachers help students make meaning from their reading? The strategies in this book address many situations, from individual instruction to small- or large-group instruction, from kindergarten to high school. Teachers will appreciate the multitude of activities provided, and administrators will learn to better evaluate the reading programs in place in their districts and schools. Grounded in both research and "teacher lore" from actual classrooms, this book is a solid guide to helping students become lifelong readers. Note: This product listing is for the Adobe

Hide and Seek ABC.

Dennis Orphen, in writing a novel, has stolen the life story of his friend, Effie Callingham, the former wife of a famous, Hemingway-like novelist, Andrew Callingham. Orphen's betrayal is not the only one, nor the worst one, in this hilarious satire of the New York literary scene. (Powell personally considered this to be her best New York novel.) Powell takes revenge here on all publishers, and her baffoonish MacTweed is a comic invention worthy of Dickens. And as always in Powell's New York novels, the city itself becomes a central character: "On the glittering black pavement legs hurried by with umbrella tops, taxis skidded along the curb, their wheels swishing through the puddles, raindrops bounced like dice in the gutter." Powell's famous wit was never sharper than here, but Turn, Magic Wheel is also one of the most poignant and heart-wrenching of her novels. From the Trade Paperback edition.

If you can't bring the man to the books, bring the books to the man. Mary Lemist Titcomb (1852-1932) was always looking for ways to improve her library. As librarian at the Washington County Free Library in Maryland, Titcomb was concerned that the library was not reaching all the people it could. She was determined that everyone should have access to the library—not just adults and those who lived in town. Realizing its limitations and inability to reach the county's 25,000 rural residents, including farmers and their families, Titcomb set about to change the library system forever with the introduction of book-deposit stations throughout the country, a children's room in the library, and her most revolutionary idea of all—a horse-drawn Book Wagon. Soon book wagons were appearing in other parts of the country, and by 1922, the book wagon idea had received widespread support. The bookmobile was born!
